Needle - Valves

for the Precise Control
of Gases and Liquids

Hoke valves are reliable, sensitive, and safe.
They are used extensively on high pressure
and vacuum pipe lines. Both blunt-point
and V-point types are available in brass,
steel, stainless steel, etc.

Valves for special purposes can
be made to your specifications as
to material and design.
The 309 valve illustrated per-
mits very fine adjustment of
small flows. It is made of forged
brass with V-point stainless steel
needle.

Folder S-212 gives further details.
