FRIDAY, FEBRUARY 10, 1899.

CONTENTS:
The Smithsonian Institution ........................................ 193
Agricultural Experiment Stations: Dr. A. C. True 199
Physiological Osmosis: Professor George Mac
Logie ................................................................. 206
Professional Schools vs. Business: Professor R. H.
Thurston ............................................................. 207
Mechanical Illustration of Kirchhoff's Principle:
Professor William Hallock ..................... 210
Plastiline, a New Modeling Compound: Dr. C. R.
Eastman ............................................................... 211
Scientific Books —
Beddard on the Structure and Classification of
Birds: F. A. Lucas. Russell on The Rivers of North
America: Professor R. E. Dodge. Broomell's
Anatomy and Histology of the Mouth and Teeth:
Professor Charles S. Minot. Books Received: 212
Scientific Journals and Articles ................................. 217
Societies and Academies:—
The Texas Academy of Sciences: Professor
Frederic W. Simonson. Philosophical Society
of Washington: E. D. Preston. The Anthropo
logical Society of Washington, Dr. J. H. Mc
Cormick. The New York Academy of Sciences,
Section of Psychology and Anthropology: Dr. C. B.
Bliss. Section of Astronomy and Physics: Dr.
Reginald Gordon. Academy of Science of St.
Louis: Professor William Trelease 217
Discussion and Correspondence:—
