LANCASTER, PENNSYLVANIA
Realizing the importance of original investigations

in the field of nutrition, Mead Johnson & Company are constantly enlarging their research department. The results have far surpassed expectations, not only because of the advantages accruing to the Company, but in contributions to pure science that have been made. Numerous materials previously unobtainable have been made available to scientists at a price only slightly above actual cost. It is a matter of much satisfaction that, without profit,

Mead Johnson and Company are able to offer assistance to fellow investigators.

INDICATORS

The Coleman & Bell Company manufacture a complete list of indicators including all of the common indicators used in analytical and biological work, the hydrogen-ion indicators recommended by Sorensen and Clark & Lubs, and in addition many rare indicators suitable for special work. These indicators are available in both the dry form and in solution, ready to use. Certain indicators are offered in the form of Test Papers in vials containing 100 strips, and in sheets 2" x 10".
