# THE AMERICAN ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE

## PRELIMINARY ANNOUNCEMENT OF THE FIFTH CHICAGO MEETING

By Dr. F. R. MOULTON

PERMANENT SECRETARY

FROM September 22 to September 27, inclusive, the association will join with The University of Chicago in celebrating the fiftieth anniversary of its founding. The university has organized a program of addresses by distinguished scientists and scholars and an extensive series of symposia in the fields of the natural sciences and the humanities under the general title "New Frontiers in Education and Research." Outlines of the programs of these addresses and symposia were published in the July 4 issue of SCIENCE, pages 20–22.

This is the fifth meeting of the association in Chicago. The earlier meetings were held in 1868, 1908, 1920 and 1933, the latest in connection with the Century of Progress Exposition organized in celebration of a century of progress through science. The theme of the exposition was proposed by Dr. Michael I. Pupin, president of the association in 1925.

Persons attending the meeting in Chicago may arrange for convenient living accommodations in the Residence Halls of the university by writing the Director of the Fiftieth Anniversary Celebration for reservations. It is suggested that those desiring rooms on the university campus write promptly (not later than August 25) for reservations because the number that will be available is limited. Each applicant
