A New Home Treatment.
Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and eustachian tubes. Microscopic research, however, has proved this to be a fact, and the result of this discovery is that a simple remedy has been formulated whereby catarhal deafness and hay fever are permanently cured in one to three simple applications made at home by the patient once a day for two weeks.

N.B.—This treatment is not a snuff or an ointment; both have been discarded by reputable physicians as injurious. A pamphlet explaining this new treatment is sent free on receipt of stamp to post postage, by A. H. Dixon & Son, 337 and 339 West King Street, Toronto, Canada.—Christian Advocate.

Sufferers from Catarhal troubles should carefully read the above.

A Temporary Binder for Science is now ready, and will be mailed postpaid on receipt of 75 cents.

This binder is strong, durable and elegant, with gilt side-title, and allows the opening of the pages perfectly flat. Any number can be taken out or replaced without disturbing the others, and the papers are not mutilated for subsequent permanent binding. Filled in this binder, Science is always convenient for reference.
