

and their Ways," by Sir Samuel White Baker, author of "Albert Nyanza," etc.; "Physical and Political School Atlas," consisting of 80 maps and complete index, by J. G. Bartholomew; Behaghel's "The German Language," translated and adapted for the use of English schools by Emil Trechmann; "An Elementary Geography of India, Burma, and Ceylon," by H. F. Blanford, late meteorological reporter to the Government of India; "A Manual of Public Health," by A. Wynter Blyth, author of "A Dictionary of Hygiene and Public Health;" "Croonian Lectures, On the Connexion between Chemical Constitution and Physiological Action, being an Introduction to Modern Therapeutics," by T. Lauder Brunton, author of "A Text-Book of Pharmacology, Therapeutics," etc.; "The Oxford Movement," by R. W. Church, dean of St. Paul's; "Elementary Manual of Applied Mechanics," by Professor J. H. Cotterill and J. H. Slade; "Handbook of Field and General Ornithology," a manual of the structure and classification of birds, with instructions for collecting and preserving specimens, by Professor Elliott Coues; "Maps and Map Drawing," by William A. Elderton; "Elements of Physics for Public Schools," by C. Fessenden, High School, Napanee, Ontario, Canada; "A Text-Book of Physiology," by Michael Foster; "Class Book of Geology," by Archibald Geikie; "A Short Manual of Philology for Classical Students," by P. Giles; "The Geometry of Position," by Robert H. Graham, author of "Graphic and Analytical Statics;" "Electricity and Magnetism," by A. Guillemin, translated and edited by Professor Silvanus Thompson; "Text-Book of Pathology," by D. J. Hamilton; "The Elements of Solid Geometry," by R. Baldwin Hayward; "Mixed Metals and Metallic Alloys," by Arthur H. Hiorns, author of "Practical Metallurgy and Assaying," "Elementary Metallurgy," "Iron and Steel Manufacture," etc.; "Sound, Light, and Heat: An Elementary Text-Book," by D. E. Jones, author of "Examples in Physics," etc.; "The Book of the 45 Mornings," by Rudyard Kipling, author's edition; "Text-Book of Comparative Anatomy," by Dr. Arnold Lang, professor of zoölogy

in the University of Zurich, translated by Henry M. Bernard and Matilda Bernard; "Euclid for Beginners," being an introduction to the existing text-books, by the Rev. J. B. Lock; Lock and Scott's American edition of the "Arithmetic for Schools;" "From Charing Cross to St. Paul's," by Justin McCarthy; "The Greek World under Roman Sway," forming a sequel to "Greek Life and Thought," and "A History of Greek Literature," by Rev. J. P. Mahaffy; "Manual of Logarithms," by G. F. Matthews; "History of Chemistry," by Professor Ernst von Meyer, translated by Dr. George McGowan; "Story of the Greek Tragedians," by Dr. Munk, translated by A. W. Verrall; "Outlines of General Chemistry," by Professor Ostwald, translated by Dr. James Walker; "Lessons in Elementary Biology," by T. Jeffery Parker; "Chronological Outlines of English Literature," by F. Ryland; "The Fossil Insects of North America," by Dr. Samuel H. Scudder; "Dr. Schliemann's Excavations at Troy, Tiryns, Mycenæ, Orchomenos, Ithaca, presented in the Light of Recent Knowledge," by Dr. Carl Shuchhardt, translated by Miss Eugenie Sellers; "The Myology of the Raven (*Corvus corax Sinuatus*): A Guide to the Study of the Muscular System in Birds," by R. W. Shufeldt; "Elements of Politics," by Henry Sidgwick; "A Geography of Europe," by James Sime; "A Hand-Book of Phonetics," by Miss Soames; "Practical Physics," Vol. III. "Optics, Heat, and Sound," by Balfour Stewart and W. W. H. Gee; "The Royal House of Stuart, illustrated by a Series of Forty Plates in Colors, drawn from the Relics of the Stuarts," by William Gibb, with an introduction and notes by John Skelton; "Analysis of English History," based on Green's "Short History of the English People," by C. W. A. Tait; "The Histories," edited with introduction and commentary, by the Rev. W. A. Spooner, M.A.; and "A System of Sight-Singing from the Established Musical Notation," based on the principle of tonic relation, and illustrated by extracts from the works of the great masters, by Sedley Taylor, author of "Sound and Music," etc.

# Dyspepsia

## Horsford's Acid Phosphate.

In dyspepsia the stomach fails to assimilate the food. The Acid Phosphate assists the weakened stomach, making the process of digestion natural and easy.

Dr. R. S. McCOMB, Philadelphia, says: "Used it in nervous dyspepsia, with success."

Dr. W. S. LEONARD, Hinsdale, N. H., says: "The best remedy for dyspepsia that has ever come under my notice."

Dr. T. H. ANDREWS, Jefferson Medical College, Philadelphia, says:

"A wonderful remedy which gave me most gratifying results in the worst forms of dyspepsia."

Descriptive pamphlet free.

Rumford Chemical Works, Providence, R. I.

Beware of Substitutes and Imitations.

**CAUTION.**—Be sure the word "Horsford's" is printed on the label. All others are spurious. Never sold in bulk.

### IMPROVED OIL LIGHT MAGIC LANTERNS.

Also Lime and Electric Light Apparatus, and mechanical, plain, and fine colored views.

J. B. COLT & CO., Manufacturers,  
No 16 BEEKMAN STREET, NEW YORK.

### FREE.

#### OUR 100 PP. CATALOGUE OF MINERALS.

Illustrated with 57 cuts, and containing (a) Scientific Papers and Notes, 41 pp.; (b) A Classified List of All Mineral Species, giving chemical composition and crystallographic form, 31 pp.; (c) An Alphabetical Index of some 3,000 mineralogical names. Paper-bound copies free to those mentioning this journal; handsome cloth-bound copies, 25 cents, postpaid. GEO. L. ENGLISH & CO., Dealers in Minerals, 1512 Chestnut street, Philadelphia; 739 & 741 Broadway, New York.

### Old and Rare Books.

Back numbers Atlantic, Century, Harper, and Scribner, 10 cents per copy, other magazines equally low. Send for a catalogue.

A. S. CLARK,

Bookseller,

34 Park Row, New York City.

**BACK NUMBERS** and complete sets of leading Magazines. Rates low. AM. MAG. EXCHANGE, Schoharie, N. Y.

### A New Method of Treating Disease.

#### HOSPITAL REMEDIES.

What are they? There is a new departure in the treatment of disease. It consists in the collection of the specifics used by noted specialists of Europe and America, and bringing them within the reach of all. For instance, the treatment pursued by special physicians who treat indigestion, stomach and liver troubles only, was obtained and prepared. The treatment of other physicians celebrated for curing catarrh was procured, and so on till these incomparable cures now include disease of the lungs, kidneys, female weakness, rheumatism and nervous debility.

This new method of "one remedy for one disease" must appeal to the common sense of all sufferers, many of whom have experienced the ill effects, and thoroughly realize the absurdity of the claims of Patent Medicines which are guaranteed to cure every ill out of a single bottle, and the use of which, as statistics prove, has ruined more stomachs than alcohol. A circular describing these new remedies is sent free on receipt of stamp to pay postage by Hospital Remedy Company, Toronto, Canada, sole proprietors.

### OF WHAT USE IS THAT PLANT?

You can find the answer in

### SMITH'S "DICTIONARY OF ECONOMIC PLANTS."

Sent postpaid on receipt of \$2.80. Publisher's price, \$3.50.

### SCIENCE BOOK AGENCY,

47 Lafayette Place, New York.

EFFORTS are being made in Sweden for the wider circulation of the observations from the Meteorological Office. The observations are telephoned to about thirty-five places, whence they are signalled by flags, a yellow, a blue, and a red, in accordance with a signalling code, which is distributed free of cost. A number of steamers have also undertaken to carry these signalling flags, and at a number of railway stations the signals are hoisted. There are even some trains that carry them.

## CATARRH.

### Catarrhal Deafness—Hay Fever.

A NEW HOME TREATMENT.

Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and eustachian tubes. Microscopic research, however, has proved this to be a fact, and the result of this discovery is that a simple remedy has been formulated whereby catarrh, catarrhal deafness and hay fever are permanently cured in from one to three simple applications made at home by the patient once in two weeks.

N.B.—This treatment is not a snuff or an ointment; both have been discarded by reputable physicians as injurious. A pamphlet explaining this new treatment is sent free on receipt of stamp to pay postage, by A. H. Dixon & Son, 337 and 339 West King Street, Toronto, Canada.—*Christian Advocate*.

Sufferers from Catarrhal troubles should carefully read the above.

## A TEMPORARY BINDER

for *Science* is now ready, and will be mailed postpaid on receipt of 75 cents.

This binder is strong, durable and elegant, has gilt side-title, and allows the opening of the pages perfectly flat. Any number can be taken out or replaced without disturbing the others, and the papers are not mutilated for subsequent permanent binding. Filed in this binder, *Science* is always convenient for reference.

Temporary binders of the same description but without side title, to fit any paper or periodical of ordinary size, will be mailed postpaid on receipt of price as given below. In ordering, be sure to give the name of paper or periodical and style of binder.

|                             |         |          |         |
|-----------------------------|---------|----------|---------|
| 8 to 12 inches long, cloth, | \$0.50; | leather, | \$0.60. |
| 12 " 14 " " " "             | 60 "    | " "      | 75.     |
| 14 " 17 " " " "             | 75 "    | " "      | 1.00.   |
| 17 " 19 " " " "             | 1.00 "  | " "      | 1.25.   |

N. D. C. HODGES, 47 Lafayette Place, New York.

## DO YOU INTEND TO BUILD?

We offer an Atlas of **Sensible Low Cost Houses**, a portfolio 11x14 inches, containing **handsome illustrations**, floor plans, and full descriptions of this popular design, and fifty-four others, ranging in cost from \$800 to \$7,200. This specimen design is for a cottage with seven rooms, and costing \$1,100. It combines beauty and comfort, has two large porches, and is a popular and practical working design, having been built several times for its estimated cost.

No matter what style of a house you may intend to build, it will pay you to have this book.

We will send this Atlas, postpaid, on receipt of price, \$1.—N. D. C. Hodges, 47 Lafayette Place, New York.

## Fact and Theory Papers

### THE SUPPRESSION OF CONSUMPTION.

By GODFREY W. HAMBLETON, M.D. 12°. 40c.

"The inestimable importance of the subject, the eminence of the author and the novelty of his work all combine to render the little treatise worthy of special consideration. We heartily commend Dr. Hambleton's booklet and wish there were more such works."—Editorial, *Boston Daily Advertiser*.

"The monograph is interesting in style, scholarly, and well worth of careful consideration. It is devoid of technical expressions, and can be easily read and digested."—*Pharmaceutical Era*.

"It is full of facts and wisdom."—*Philadelphia Saturday Evening Post*.

"The book contains much of importance to the medical fraternity, as well as the general populace."—*Burlington Hawkeye*.

"We commend the book to physicians and laymen."—*Herold* (German), Milwaukee.

### THE SOCIETY AND THE "FAD."

By APPLETON MORGAN, Esq. 12°. 20 cents.

"Mr. Morgan founds a sensible and interesting address upon a text furnished by a sentence from a young ladies' magazine; namely, 'Browning and Ibsen are the only really dramatic authors of their century.'"—*New York Sun*.

"In the little book before us the treatment of the subject is dispassionate and logical. The comparison drawn throughout this monograph is between Shakspeare and Browning, the subject-matter being largely based on the Browning and Shakspearian societies and how they came to exist. A pleasant half-hour or more may be spent over the book, and some useful information derived from it."—*Englewood Times*.

"To say nothing of the dissection of Browning, the vivid side-lights thrown upon Shakspeare's life and work make the reading of this volume at once a pleasure and a source of instruction."—*Chicago Evening Journal*.

### PROTOPLASM AND LIFE.

By C. F. Cox. 12°. 75 cents.

The author of this book was for some years president of the New York Microscopical Society, and in this volume he sets forth his views on the spontaneous generation theory and its relation to the general theory of evolution, and on protoplasm and the cell doctrine.

### THE TORNADO.

By H. A. HAZEN. 12°. \$1.

Professor Hazen is one of the prominent meteorologists connected with the United States Signal Office. In this work he reviews our present information as to tornadoes, severely criticising some of the opinions held in regard to them up to this time. No one has given a more careful study to these destructive storms than has Professor Hazen, and his book will prove a decided contribution to the world's knowledge. In this book will be found a careful discussion of the important question of Tornado Insurance now attracting so much attention. Hundreds of dollars may be saved by people who are thinking of such insurance by following the principles here made plain.

### THE CHEROKEES IN PRE-COLUMBIAN TIMES

By CYRUS THOMAS. 12°. \$1.

Dr. Thomas in this work will reverse the usual method of dealing with prehistoric subjects: that is to say, he will commence with the earliest recorded history of the tribe as a basis and trace the chain back step by step by the light of the mounds, traditions, and other evidence, as far as possible. He has already presented to the public some reasons for believing the Cherokees were mound-builders, but additional evidence bearing on the subject has been obtained. A more careful study of the Delaware tradition respecting the Tallegwi satisfies him that we have in the Bark Record (Walam Olum) itself proof that they were Cherokees. He thinks the mounds enable us to trace back their line of migration even beyond their residence in Ohio to the western bank of the Mississippi. The object is therefore threefold: 1. An illustration of the reverse method of dealing with prehistoric subjects; 2. Incidental proof that some of the Indians were mound-builders; 3. A study of a single tribe in the light of the mound testimony. This work will be an important contribution to the literature of the Columbian discovery which will doubtless appear during the coming two years.

**BOOKS: How to Sell them.** Send a list, stating condition, edition, etc., to Science Book Agency, 47 Lafayette Place, New York.

## Wants.

Any person seeking a position for which he is qualified by his scientific attainments, or any person seeking some one to fill a position of this character, be it that of a teacher of science, chemist, draughtsman, or what not, may have the "Want" inserted under this head FREE OF COST, if he satisfies the publisher of the suitable character of his application. Any person seeking information on any scientific question, the address of any scientific man, or who can in any way use this column for a purpose consonant with the nature of the paper, is cordially invited to do so.

PROFESSOR W. M. DAVIS, Harvard College, Cambridge, Mass., desires to correspond with professional and amateur photographers, from whom he can obtain views of New England landscapes

WANTED.—A specialist in chemistry (an American) desires a position as instructor in chemistry; as assistant or in full charge of department; would accept a lucrative position in physical sciences; studied at Göttingen, Germany; degree Ph.D.; two years' experience as teacher of chemistry. Address DOCENT, P. O. Box 1151, Brockton, Mass.

WANTED.—Advertisements of text-books and good standard works on Natural History, for stocking a library. Add price. Address M. D. SULLIVAN, St. Louis University, St. Louis, Mo.

WANTED.—Science teacher at the State Normal School, Winona, Minn. Address the President, IRWIN SHEPARD.

WANTED.—Index to Vol. VIII. and a copy of No. 205 of SCIENCE. Ten cents will be paid for a copy of either of these if in good condition. Publisher of SCIENCE, 47 Lafayette Place, New York.

TO PRINCIPALS OR COMMITTEES.—Professor of Classics and Sciences, experienced in advertising and building up schools, now employed, desires change. WILLIAM, Roslyn, L. I.

WANTED.—A graduate from the Advanced Course of the Framingham State Normal School desires an assistant's position in a high school. An appointment in New England preferred. Address G., Lock Box 4, Framingham, Mass.

HYBRIDS.—A. M. Suchetet, 10 Rue Alain, Rouen, France, desires to correspond with those possessing hybrids, either living specimens or stuffed, of mammals, birds or other animals.

CHEMIST.—A Harvard Graduate and Specialist in Chemistry desires a position with some manufacturing industry, or with a practical chemist. He would make an engagement to take charge of a laboratory and lecture on Chemistry. He has had large experience in the laboratory and school-room, and can give the best of references. Address J., Harvard College, Cambridge, Mass.

WANTED.—A Lady Teacher, at present teaching in England, with 12 years of very successful experience in primary work, desires a similar position in America. An appointment in the State of Ohio, or the City of New York, preferred. Excellent references, etc. Address in July or August, L. DUNCAN, Poste Restante, Stainland, Halifax, England.

## Exchanges.

[Free of charge to all, if of satisfactory character. Address N. D. C. Hodges, 47 Lafayette Place, New York.]

For exchange—minerals and fossils, including ores, corals, Mazon Creek nodules for other minerals and fossils or historical relics. Tertiary specimens desirable. Address T. N. Glover, Lock Box 19, Suffern, N. Y.

I wish to exchange Riley's Missouri Reports, either singly or full set, for Proceedings Entomological Society, Philadelphia, vols. 2 to 6 inclusive. Will also exchange Casey's Revision of the *Stemini* of N. A. and Horn's Revision of the *Tenebrionidae*. F. M. Webster, La Fayette, Ind.

I wish to exchange a fresh and complete set of Weiss and Spier's "Necropolis of Ancon" for other books, either new or second-hand, if the latter are in good condition. What have you to offer? Address Warren Watson, Kansas City, Mo.

1,000 botanical specimens representing 250 genera in exchange for those not in my collection. Send list of duplicates, and receive a similar one to choose from. Address E. E. Bogue, Orwell, Ashta Co., Ohio.

For exchange—14 volumes (1883-1889) American Journal of Science, 10 volumes (1880-1889) American Naturalist, 21 volumes (1879-1900) English Mechanic, all in good condition for binding; also, Morris Typewriter. Wants first-class microscope, camera, chemical or physical apparatus. Address, with full particulars, E. R. Chadbourne, Lewiston, Maine.

Meteorites.—Mr. George F. Kunz, 11 to 15 Union Square, New York, or Hoboken, N. J., will buy or give in exchange for whole or parts of meteorites. Whole ones, undescribed ones, and entire falls especially desired.

Wanted.—To furnish roots of *Dodecatheon Meadia*, *Sarracenia purpurea*, and other wild flowers, native of Southern Wisconsin, in quantities. D. E. Willard, Curator of Museum, Albion Academy, Albion, Wis.
