
—Babyhood for November contains an article on "Vegetables as Food for Young Children," by the medical editor, Dr. L. M. Yule. Of no less interest to young mothers is the article on "The Care of the Baby's Skin," by Dr. G. T. Jackson, the chief of the skin clinic at the New York College of Physicians and Surgeons. "Twice Told Nursery Tales" is another medical article. The departments of "Occupations and Amusements," and the replies of the medical editor to the many questions asked by perplexed mothers, will be found very helpful.

CALENDAR OF SOCIETIES.

Boston Society of Natural History.
Nov. 5. — G. H. Barton, Drumlin of Massachusetts; F. W. Putnam, Archeological Explorations in Ohio during the Past Season.

Wants.

Any person seeking a position for which he is qualified by his scientific attainments, or any person seeking such a position, is invited to make his application to the address of a teacher of science, chemist, druggist, or what not, and the address is inserted under hand and year or cost, if he desires the publisher of the suitable character of his application. Any person wishing information on any scientific question, the address of any scientific man, or who can in any way assist the collector for a purpose consonant with the nature of the paper, is cordially invited to do so.

WANTED.—There being a considerable annual income for the purchase of books for the Museum Reference Library of Iowa College, it is desirable to have at hand any and all catalogues, specimen sheets, catalogues, etc., of all works on Natural History in general, both foreign and domestic. Catalogues of museum supplies, apparatus, etc., desired also. State terms. Address EDWIN H. BARSOU, Box 1385, Grinnell, Iowa.

WANTED.—A position as Analytical Chemist is desired by the assistant of the late noted scholar, Professor C. B. Cooley, during his 15 years survey of the state of New Jersey. Highest testimonials for mining. Address Prof. EDWIN H. BOURGEOIS, New Brunswick, P. O. Box 204, care Prof. C. H. Van Dyke.

WANTED.—To purchase a complete set, or single numbers, of Loomis' contributions to meteorology, published in the American Journal of Science. Address communication, stating price, to FRANK WALDO, Mountain Lake Park, Garrett Co., Maryland.

COULD some one inform me what the ingredients and origin of asphalt as used for street-paving and macadam highway are? Also how is it gathered and shipped by natives, and mode of refining by the Warren-Scherff Co. of New York and the Baker Co. of Washington? G. KNIPPER, 86 Gunk Block, Grand Rapids, Mich.

WANTED.—A position in a Normal School or College as teacher of Botany, Physiology, Zoology, General Chemistry, Physics, or Mathematics, by a university graduate who has done special work in this subject. Several years' experience in teaching, and one year as assistant in Biology in a prominent university. Box 356, Greenacres, Ind.

PROFESSOR W. M. DAVIS, Harvard College, Cambridge, Mass., desires to correspond with professional and amateur botanists, from whom he can obtain views of New England landscapes.

Exchanges.

(Free of charge; address all letters of a satisfactory character. Address N. D. C. HUDGERS, 47 Lafayette Place, New York.)

I wish to exchange Eastern Lepidoptera for those that I do not have, particularly those found in the South. Jos. F. Cressall, Herndon, Wayne Co., Pa.

To exchange, 1899 Seger and Guernsey Cyclopedias, containing a complete list of the manufacturers and products of the U. S., and address of first hands, cost $6. David R. Lewis, Saybrook, Ill.
