plain language some of the principal facts and speculations connected with that science. The plan of the work is similar to that which proved so successful in the first volume of the series, in which the same author treated of evolution and kindred subjects. In separate articles, each complete in itself yet closely connected to the others, the author deals successively with the sun and moon, the earth, the stars and nebulas, and the planets; adding some speculations on the formation of the heavenly bodies and the contents of space. and concluding with a brief chapter on the tides, light, and the spectroscope. This series of handy volumes is published by Black of Edinburgh, and in this country by Macmillan.

—Mr. Nicholas P. Gilman, author of "Profit-Sharing between Employer and Employee," has in preparation a new volume, to be entitled "Socialism and the American Spirit." It will comprise chapters on the re-action of individualism; recent American socialism; the American social idea in practice as distinguished from individualism and socialism; the field for social reform in America; arbitration, industrial partnership, and co-operative production, considered as steps out of labor troubles; recent progress in profit-sharing; the first duty of the educated classes; the way to Utopia; etc.

Messrs. Henry Holt & Co., will publish in January the first number of a new monthly, *Educational Review*, of which Professor Nicholas Murray Butler of Columbia, who is president of the New York College for the Training of Teachers, will be editor-in-chief; and associated with him will be Dr. E. H. Cook, head master of Rutgers Preparatory School, New Brunswick, N. J.; Dr. William H. Maxwell, superintendent of schools in Brooklyn; and Dr. A. B. Poland, superintendent of schools in Jersey City. This gives the university, the preparatory school, and the public school representatives on the editorial board. The character of the publication may be further inferred from the fact that the circular announcing it contains the endorments of the presidents of Harvard, Yale, Johns Hopkins, Columbia, Massachusetts Institute of Technology, Cornell, University of Michigan, and some hundred educators of corresponding prominence. Probably no equally promising attempt at an educational periodical has ever before been made in America, or anywhere.

—The J. G. Cupples Company of Boston will soon issue a holiday book entitled "Auntie’s Elf Land." It is a collection of fairy-stories, or, rather, the combination of three children who had most strange adventures in the land of "the little folk." They are written by Mrs. Maria Hildreth Parker, and are illustrated by Hermann D. Murphy.

Wants.

Any person seeking a position for which he is qualified by his scientific attainments, or any person seeking some one to fill a position of this character, be it that of a teacher of science, chemist, draughtsman, or what not, and who is willing to be under this head of cost, if he submits the publisher of the character of his application. Any person seeking information of the scientific position of any scientific man, or who can in any way use this column, and who is willing to have the nature of the paper, is cordially invited to do so.

WANTED.—An exploring Expedition, backed by $50,000, will be sent into Alaska and the British North-West Territory the coming year, to be worked one or two seasons. A scientific or two will more than likely be taken along. Application for places will be gladly received and carefully considered. When in working these applications the importer would always wish to consider a fair knowledge of mineralogy and geology necessary, and if the applicant can prove himself to be a good botanist or zoologist, or any other of the sciences and photography, and is willing to call on neighbors and other useful arts for assistance, it will add to the chances of being selected. Applicants must be physically perfect, and ought to be about medium size. One of these scientists will be the second command of the exploring party. As the party will go forward in the same key, and no alterations will be made, it will be essential that this man be selected. Applications will be closed about the 1st of January, 1873. Address Prof. Edwin H. Barbour, Box 3336, Grinnell, Iowa.

WANTED.—A situation as Analytical Chemist is desired by a gentleman of the late noted scientific, Dr. Cook, during his 15 years service of the State of New York. Address Prof. Edwin H. Bogardus, New Brunswick, N. J., care Prof. C. F. Van Dyk.

CULD some one inform me what the ingredients and origin of asphalt is used for street-paving and road building are? Also how gathered and shipped by natives, and mode of refining by the Wedgewood-Bailey, North-East, and Van Keuren, Co., of Washington! G. KNIPFล, 30 Gunn Block, Grand Rapids, Mich.

WANTED.—A position in a Normal School or College of Science and Letters. Address Prof. W. M. Davis, Harvard College, Cambridge, Mass., there to correspond with his friends, from whom he can obtain views of New England landscapes.

HOUSEHOLD HYGIENE.
BY MARY TAYLOR BISSELL, M.D., NEW YORK.
13th. 75 cents.

"This little volume has been compiled with the hope that the housekeeper of to-day may find in its pages a few definite and simple suggestions regarding sanitary house-building and housekeeping which will aid her to maintain in her own home that high degree of intelligent hygiene in whose enforcement lies the physical prosperity of family life" (author's preface).

TIME RELATIONS OF MENTAL PHENOMENA.
BY JOSEPH JASTROW, PROFESSOR OF PSYCHOLOGY AT THE UNIVERSITY OF WISCONSIN.
12th. 50 cents.

It is only within very recent years that this department of research has been cultivated; and it is natural that the results of different workers, involving variations in method and design, should show points of difference. In spite of these it seems possible to present a systematic sketch of what has been done, with due reference to the ultimate goal as well as to the many gaps still to be filled.

"The story is a piquant, good-natured, entertaining narrative of a canoe voyage. A master, prettier book is seldom seen."—Literary World.

"This is a sprightly narrative of personal incidents which would make a pleasant reminder to many of rough experiences on a frontier which is rapidly receding."—Boston Transcript.

"The picture of our desolate North-western territory, 150 years ago, in contrast with its civilized aspect to-day, and the pleasantness of the writer's style, constitute the claims of his little book to present attention."—The Dail.
