special attention is given throughout the book to the national banking system of the United States. The book cannot fail to be useful, not only to students, but also to men of business who wish to understand the methods of banking without being practically engaged in the work.

The French Invasion of Ireland in '98. By VALERIAN GIRAYE-DOFF. New York, Truth Seeker Company. 8°. $1.50.

This interesting work is not only a strong "side-light" on the times, persons, and places of which it treats, but also an important footnote to the history of Europe. It is well written and easily read; and the many authorities quoted or referred to prove that there was no lack of material from which to compile a truthful narrative of one of the many extraordinary episodes of the French Revolution. The greater events taking place at the time, Bonaparte and his doings then furnishing more than ample material for historians, crowded out or overshadowed the fact that Gen. Humbert, with a handful of French soldiers (little more than a thousand), penetrated to the heart of Ireland, held his own for several weeks against vastly superior numbers, and conquered an entire province before he was finally compelled to surrender to overwhelming odds. And the reasons why the apparently quixotic expedition failed of its purpose, or at least did not achieve a greater measure of success, are apparent to all who peruse this narrative, and at the same time consider the course of recent events in Ireland and the erratic actions of some of the present leaders in Irish political affairs.

The interest in the stirring events narrated in this volume will be enhanced by the fact that the commander of the expedition, Gen. Humbert, afterwards became an American citizen, served with honor in the war of 1812, and distinguished himself at the battle of New Orleans, where, by one of the coincidences of warfare, he found himself opposed to several of the English officers who had contributed to his defeat in Ireland.

A TEMPORARY BINDER
for Science is now ready, and will be mailed postpaid on receipt of 75 cents.

This binder is strong, durable and elegant, has gilt sides, and allows the opening of the pages perfectly flat. Any number can be taken out or replaced without dislocating the others and the papers are not mutilated for subsequent permanent binding. Filed in this binder, Science is always convenient for reference.

Temporary binders of the same description but without side title, to fit any paper or periodical of ordinary size, will be mailed postpaid on receipt of price as given below. In ordering, be sure to give the name of paper or periodical and style of binder.

8 to 12 inches long, cloth, $0.50; leather, $0.60.
13 " 14 " 15 " 16 " 60 " 75.
17 " 18 " 19 " 20 " 75 " 1.00.

WORLD-ENGLISH.
HANDBOOK OF WORLD-ENGLISH.
25 Cents.

By President Andrew D. White, of Cornell University, says: "I believe that the highest interests of Christian civilization and of humanity would be served by its adoption." So set down, our tongue is the beat for the world to unite upon."—Brooklyn Eagle.

The idea of Mr. Bell has much to recommend it, and the presentation is charmingly clear."—American, Philadelphia.

The result is a language which cannot fail to meet with acceptance."—Boston Traveller.

World English deserves the careful consideration of all serious scholars.—Modern Language Notes.

Sent, postpaid, on receipt of price.

N. D. C. HODGES, 47 Lafayette Place, New York

Speech Reading and Articulation Teaching.
By A. MELVILLE BELL.

Price, 25 Cents.

Practical Instructions in the Art of Reading Speech from the Mouth: and in the Art of Teaching Articulation to the Deaf.

[This Work—written at the suggestion of Miss Sarah Fuller, Principal of the Hornacek School for the Deaf, Boston, Mass. In 1876, as far as known, the first Treatise published on "Speech Reading."]

From Principals of Institutions for the Deaf.

"Admirable in its conciseness, clearness and freedom from technicality."—The simplicity and perfection of this little book.

"Full of exact and helpful observations."—A very interesting and valuable work.

"The rules are clearly given and will be of great utility."—Every articulation teacher should study it.

"A model of clarity and simplicity, without having any of the puzzling symbols that trouble the common mind. The exercises given in speech-reading from the lips are especially interesting, and of great importance for the student of phonetics."—Modern Language Notes.

READY SOON.

THE LABORADOR COAST.

A Journal of two Summer Cruises to that region: with notes on its early discovery, on the Eskimo, on its physical geography, geology and natural history, together with a bibliography of charts, works and articles relating to the civil and natural history of the Labrador Peninsula.

By ALPHEUS SPRING PACKARD, M.D., Ph.D. 8vo, about 400 pp., $3.50.

FOSSIL RESINS.

By CLARENCE LOWN and HENRY BOOTH.

This book is the result of an attempt to collect and record notices of fossil resins, exclusive of those on amber. The work is of interest also on account of descriptions given of the insects found embedded in these long-preserved exudations from early vegetation.

Fact and Theory Papers

I. THE SUPPRESSION OF CONSUMPTION. By Dr. H. Brinton, M.D. 12mo. 400.

"The irresistible importance of the subject, the eminence of the author, and the novelty of his work, illumine to render the little treatise worthy of special consideration. ... We heartily commend Dr. Brinton's book, and hope to see such works."-Editorial, Boston Daily Advertiser.

II. THE SOCIETY AND THE "FAD." By Aylwin Moxon. 16mo. 60 cents.

Mr. Morgan found a sensible and interesting subject upon a text furnished by a situation of a young lady's magazine; namely, "Browning and Jesus are the only really dramatic events of the last century."-New York Sun.

III. PROTOPLASM AND LIFE. By C. F. Cotton. 12mo. 75 cents.

"To be recommended to those who are not specialists."-Christian Union.

IV. THE CHEROKEES IN PRE-COLUMBIAN TIMES. By Cyrus Thom. 16mo. 120.

"No work has already been presented to the public some reasons for believing the Cherokee were the mound-builders in the southeastern 

II. THE AMERICAN RACE.

By DANIEL G. BRINTON, M.D.

A Linguistic Classification and Ethnographic Description of the Native Tribes of North and South America. This is the first attempt ever made to classify all the Indian tribes by their languages, and it also treats of their customs, religious, physical traits, arts, antiquities, and traditions. The work comprises the results of several years of study in this special field.

Price, postpaid, $2.

THE MODERN MALADY; or, Sufferers from "Nerves."

An introduction to public consideration, from a non-medical point of view, of a condition of ill-health which is increasingly prevalent in all ranks of society. In the first part of this work the author dwells on the errors in our system of treating Neurosis, consequent on the wide ignorance of the subject which still prevails; in the second part, attention is called to the principal causes of the malady. The following is a brief history of the work of treatment which has at various times been thought suitable to this most painful and 

tyring disease.

BY CYRIL BENNET.

12mo., 154 pp., $1.50.

THE WINNIPEG COUNTRY;

Roughing It with an Eclipse Party.

A ROCHESTER FELLOW.

(R. B. SUCORD.

With thirty-two Illustrations and a Map. 12mo. 120.

"The story is a piquant, good-humored, entertaining narrative of a canoe voyage. A reader, prettier book is seldom seen."-Literary World.

"This is a sporting record of personal incident. The book will be a pleasant reminder to many of roughing it on a frontier which is rapidly receding."-Boston Transcript.

The picture of the North-western territory twenty-five years ago, in contrast with its civilised aspect at the present day, and the pleasant features of the writer's style, constitute the claims of his little book to present status to claim all.

THE SAME BY THE SAME AUTHOR.

RACES AND PEOPLES.

"The book is good, thoroughly good, and will long remain the best accessible elementary ethnography in our language."-The Christian Union.

"We strongly recommend Dr. Brinton's "Races and Peoples" to both beginners and scholars. We are not aware of a more recent work on the science of which it treats in the English language."-Atlantic Quarterly.

"His book is an excellent one, and we heartily recommend it as an introduction to the study of the Tropical World."-Philadelphia Public Ledger.

This work is indispensable to the student who requires an intelligent guide to a course of ethnographic study.

Price, postpaid, $1.75.

THE ORIGINS OF THE NOBEL PRIZE.

BY WILLIAM WARDEN.

A useful and interesting reading, it is written with great clearness; everybody can understand it, and while in some way, perhaps, superficial, it contains many very important facts of history."-The New York Times.

"Dr. Brinton invests his scientific illustrations and measurements with an indescribable charm of narration, so that "Races and Peoples" admirably records the progress of recovered facts, in reality a strong stimulus to the imagination."-Philadelphia Public Ledger.

We heartily recommend this book to every one who is interested in the history of the human race.

Price, postpaid, $2.50.

THE FORMATION OF THE ADIRONDACK MOUNTAINS.

BY CYRUS THOM.

A contribution to the geological history and physical education of the United States.

Price, postpaid, $2.50.

IF YOU WOULD BE A WISE MAN.

BY CYRUS THOM.

In a popular way, and the first of a new class of volumes, Dr. Brinton undertakes to trace the evidence of a single Indian tribe into the past, and to give a complete account of the domestic, social, and industrial condition of the mound-builders.

"An interesting paper."-Christian Union.

V. THE TORNADO.

BY H. A. HAZEN.

12mo. 120.

"This book is extremely interesting."-Boston Transcript.

"A book which will find a place on the bookshelf."-The Tribune.

"The Tornado's a popular name given to the whirlwind in the United States; of which there is no exact science, and in which the author, Professor Hazen of the United States Government, is regarded as an expert."-Philadelphin Public Ledger.

VI. TIME-RELATIONS OF MENTAL PHENOMENA.

BY JOSE H. JARRETT. 12mo. 50c.

"All students of psychology will find the book full of interesting facts."-Professor Jastrow's good qualities as a thinker and as a writer are too widely known to require comment."-Public Opinion.

"A useful work for psychologists-as well as for the public-atory-"by setting forth the probable most intelligible form of the present state of knowledge in regard to the time required for the performance of mental acts."-The Critic.

VII. HOUSEHOLD HYGIENE.

BY MARY TAYLOR HOLLIS. 12mo. 75 cents.

A admirable book on a subject of every-day life, and which contains is tersely and intelligently expressed."

"Practical and simply written."-Springfield Republican.

"The best monograph on home hygiene."-St. Louis Globe-Democrat.
