Pressed by the necessity to obtain the requisite animal forms "herewith to illustrate his many and voluminous works, Professor Parker became a patient and indefatigable collector of morphological material, and at the time of his death his private cabinets stood among the largest and best in existence. As will be seen from what his distinguished son says, that collection is soon to be placed upon the open market for disposal. From my own personal knowledge, gained through a correspondence with its collector extending over a number of years, I can state that it simply represents a perfect mine of anatomical wealth, abounding in alcoholics of the rarest of vertebrate forms, in carefully worked out skeletons of all the classes of the animal kingdom possessed of a bony skeleton, in unique types, and in a rich mass of illustrative material for the Invertebrata. Fortunately indeed will that institution be that can secure by purchase this great treasure, and I feel sure that American science is with me in the devout hope that it may as a whole be obtained by this country. More than a generation will surely pass by before such another opportunity will be offered our museums to so enrich their collections in departments of such paramount importance, — and yet it needs but a word from some one among the wealthy, or the timely action of our own government, to have all this conveyed to our shores. Think for an instant how the inquiring of that material would swell and fill the gaps in the collections of the United States National Museum. What a living repository of reference would be there for the students in science for ages to come. Let it be hoped that the bare suggestion of the above facts is sufficient for our prompt action to secure for ourselves such a rare treasure as Professor Parker's collection.

Takoma, D.C., July 7.

AMONG THE PUBLISHERS.

The Forest and Stream Publishing Co. announce a new and enlarged edition of "Steam Yachts and Steam Yachting: Their Machinery and Management," by C. P. Runkhast. The work has been extended by the addition of several chapters and many new plates, to keep pace with the growth of steam yachting.

— The Casel Publishing Company will issue immediately, by arrangement with the English publishers, Miss Mene Muriel Dowie's book, "A Girl in the Wild West," in which she gives an account of her travels among the mountains of Russia-Poland. The book is illustrated with maps and bits of scenery, and contains a full-length portrait of Miss Dowie in flannel shirt jacket, knickerbockers and Tam-o'-Shanter, as she travelled on horseback and alone through this wild region. Miss Dowie, who is in her early twenties, is the young lady who aroused the enthusiasm of the British Association by an address before that learned body on her return from her travels.

— E. & F. N. Spon, Publishers, 12 Cortlandt Street, New York, announces as ready, "Telephones: Their Construction and Fitting," a practical treatise on the fitting-up and maintenance of the various systems in use in the United States, on the continent of Europe, and in our colonies, and with a description of the various types of telephones, with their uses and advantages.

OF WHAT USE IS THAT PLANT?

You can find the answer in SMITH'S "DICTIONARY OF ECONOMIC PLANTS."

Sent postpaid on receipt of 20 cents. Publisher's price, 30 cents.

telephones and the auxiliary apparatus, by F. C. Allop; and "Practical work in Organic Chemistry," by Fredk. Wm. Streetfield, with a preface written by Professor E. Moldale.

An ephemeral for the use of members of the astronomical department of the Brooklyn Institute, July to December, 1891, prepared by the executive committee of the department, has just way that may suit their convenience, the phenomenon to which attention is called in the ephemeral, and to make notes of their observations. The president of the department will be particularly obliged if members will, at their earliest convenience inform him, by letter or otherwise, of their intention to undertake any of the observations recommended. Any request for additional information or advice will meet with prompt attention. It is intended to make the department of astronomy one of the foremost in the Brooklyn Institute, both in the attractiveness of its meetings and in its general influence, and every member who undertakes any of these observations will give material assistance to that end.

Exhaustion

Horsford's Acid Phosphate.

The phosphates of the system are consumed with every effort, and exhaustion usually indicates a lack of supply. The Acid Phosphate supplies the phosphates, thereby relieving exhaustion, and increasing the capacity for labor. Pleasant to the taste.

Dr. A. N. Knowlton, Van Wert, O., says: "Decidedly beneficial in nervous exhaustion."

Dr. S. T. Newman, St. Louis, Mo., says: "A remedy of great service in many forms of exhaustion."

Descriptive pamphlet free.

Rumford Chemical Works, Providence, R. I.

Beware of Substitutes and Imitations.

CAUTION.—Be sure the word "Horsford's" is printed on the label. All others are spurious. Never sold in bulk.

Speech Reading and Articulation Teaching.

By A. MELVILLE BELL.

Price, 25 Cents.

Practical Instructions in the Art of Reading Speech from the Mouth, and in the Art of Teaching Articulation to the Deaf.

[This Work—written at the suggestion of Miss Sarah Fuller, Principal of the Horace Mann School for the Deaf, Boston, Mass.—is, so far as is known, the first Treatise published on "Speech Reading."]

From Principals of Institutions for the Deaf.

"Admirable in its conciseness, clearness and freedom from technicality."

"The simplicity and perfection of this little book.

"Full of exact and helpful observations."

"A very interesting and valuable work."

"The rules are clearly given and will be of great utility.

"Every articulation teacher should study it."

"A model of clearness and simplicity, without having any of the purpling symbols that trouble the common mind."

"The exercises given in speech reading from the lips are especially interesting, and of great importance for the student of phonetics."

"The above work may be obtained, by order, through any bookseller, or post-free on receipt of price, from

NEW BOOKS.
J U S T P U B L I S H E D F O S S I L R E S I N S.

This book is the result of an attempt to collect the scattered data on the study of fossil resins, exclusive of those on amber. The work is of interest also on account of descriptions given of the insects found embedded in these long-preserved exudations from early vegetation.

By CLARENCE LOWN and HENRY BOOTH. 12°.

THE AMERICAN RACE: By DANIEL G. BRIGHTON, M.D.

"The book is based on the best data and value. -- Inter Ocean."

"Dr. Daniel G. Brighton writes as the acknowledged authority of the subject."--Philadelphia Press.

"A masterly discussion, and an example of the highest attainable culture and skill."--Open Educational Ledger.

Price, postpaid, $2.

BY THE SAME AUTHOR.
RACES AND PEOPLES.

"The book is good, thoroughly good, and will remain the best accessible elementary ethnography in our language."--The Nation, U. S. A.

"We strongly recommend Dr. Brighton's 'Races and Peoples' to both beginners and scholars. We are not aware of any other recent work on the science of ethnology written in English language."--Asiatic Quarterly.

"His book is an excellent one, and we heartily recommend it as an introductory manual of ethnology."--The New York Times.

"Dr. Brighton invests his scientific illustrations and measurements with an indescribable charm of narration so that 'Races and Peoples' appears as a record of discovered facts in reality a strong stimulus to the imagination."--Philadelphia Public Ledger.

Price, postpaid, $1.75.

THE MODERN MALADY; or, Sufferers from 'Nerves.'

An introduction to public consideration, from a non-medical point of view, of a condition of ill-health which is increasingly prevalent in all ranks of society. In the first part of this work the author dwells on the errors in our mode of treating Neuromania, consequent on the wide ignorance of the subject which still prevails; in the second part, attention is drawn to the principal causes of the malady. The allegory forming the Introduction to Part I. gives a brief history of nervous exhaustion and the modes of treatment which have at various times been thought suitable to this most painful and trying disease.

By CYRIL BENNETT. 12°. 184 pp. $1.50.

NEW SCIENCE.

I. THE SUPPRESSION OF CONSUMPTION. By GODFREY W. HAMILTON, M.D. 16°.

"The late lamented importance of the subject, the enthusiasm of the author, and the power of his style, recommend this little work to a special consideration."--N. Y. Tribune.

We heartily commend this work and recommend it to those interested in such works."--Editorial, Boston Daily Advertiser.

"A most interesting and fresh effort in the line of medical improvement and well worth of careful consideration. It is designed to give a clear and comprehensive view of the disease in all its phases, and to be easily read and digested."--Pharmaceutical Era.

II. THE SOCIETY AND THE 'FAD.' By ARRINGTON MORGAN, M.D.

"Mr. Morgan found a sensible and interesting writer of a book...a young ladies' magazine...the prevailing fad has been really only a strange twist of the century."--New York Sun.

"An important contribution to the literature..."--Public Opinion.

"Worthy of a careful perusal."--Indians Medical Journal.

"An interesting and popular account of the tenements of modern biological thought."--Popular Science News.

"All interested in biological questions will find the book fascinating."--Philosophical Magazine.

"The author displays a very comprehensive grasp of his subject."--Public Opinion.

"Deserves the attention of students of natural science."--The Nation, U. S. A.

IV. THE CHEMISTS IN PRE-COLUMBIAN TIMES. By CYRUS THOMAS. 12°.

"He, perhaps, is the better-equipped to deduce some reasons for believing the Cherokee were mound-builders, but additional evidence bearing on the subject has been obtained. A more careful study of the remains of the Delaware tribe at Falley's river, Ohio, shows a mound in the island of the Mississippi. The object is therefore rendered of interest in connection with prehistoric subje..."--By CYRUS THOMAS. 12°. 184 pp. $1.50.

"A valuable contribution to the question, 'Who were the mound-builders?"--By CYRUS THOMAS. 12°. 184 pp. $1.50.

"Professor Cyrus Thomas undertakes to trace the Indian mound-builder 'as far as the remains of knowledge will carry us'"--By CYRUS THOMAS. 12°. 184 pp. $1.50.

"The 'Tornado' is a popular treatise on an important province of meteorology in which science, the author, Professor Hanson of the United States Signal Service, may be regarded as an expert."--Philadelphia Public Ledger.

VI. TIME-RELATIONS OF MENTAL PHENOMENA. By JAMES J. HOPWOOD. 12°.

"All students of psychology will find the book full of interesting facts, and it is quite a treat to read. The author makes a study of the subject for its own sake, but his work is also a valuable contribution to the subject of intelligence."--By CYRUS THOMAS. 12°. 184 pp. $1.50.

"The usefulness of psychology as a tool for the study of the mind is greatly increased by this admirable work."--By CYRUS THOMAS. 12°. 184 pp. $1.50.

VI. HOUSEHOLD HYGIENE. By JAMES J. HOPWOOD. 12°.

"The author of this important work is an authority on medical hygiene. The book is a concise statement of the principles of hygiene, both with regard to the individual and the community, and with regard to the time required for the performance of each duty."--By CYRUS THOMAS. 12°. 184 pp. $1.50.

VIII. THE FIRST YEARS OF CHILDHOOD. By J. MARIE BALDWIN.

"The best monograph on house hygiene,"--St. Louis Globe-Democrat.

N. D. C. HODGES, 47 Lafayette Place, New York.
