Dyspepsia

Dr. T. H. Andrews, Jefferson Medical College, Philadelphia, says of Horsford's Acid Phosphate.

"A wonderful remedy which gave me most gratifying results in the worst forms of dyspepsia."

It reaches various forms of Dyspepsia that no other medicine seems to touch, assisting the weakened stomach, and making the process of digestion natural and easy.

Descriptive pamphlet free on application to Horsford Chemical Works, Providence, R. I.

Beware of Substitutes and Imitations.

For sale by all Druggists.

Upon the whole, we may say that this handsomely gotten-up manual presents but little for adverse criticism, when we come to consider what the volume aims to give, while it offers a great deal to commend it, and it is a work that any entomologist in this country will be proud to see upon the shelves of his library, as it is one that the student of entomology will be constantly called upon to consult.

R. W. CHAFFETZ.

The problem, Who were the mound builders? has long been one which has interested students of the antiquities of the valley of the Ohio, without much unanimity of conclusion on the part of those who undertook to answer it. Whoever these ancient peoples were, Mr. Moorehead and his collaborators in the work before us have been enabled by a series of admirably conducted investigations to throw a new light on their arts and institutions. These collaborators are Mr. Gerard Fowke, Dr. H. T. Cresson, and Mr. W. H. Davis; each of whom contributes one or two chapters to the book, on special fields.

After an opening chapter on palaeolithic man, there are descriptions of excavations in various sites, the most celebrated of which are Fort Ancient, Madisonville, and Hopewell's Tumuli. The discoveries in the latter were especially rich, and will figure prominently in the archæological department of the Chicago Exposition. There are, throughout, particularly interesting as indicative of an extended use of metals, notably copper.

An examination of the skulls unearthed shows the contemporary existence of two groups, the one short-headed, the other long-headed; or, are they simply two cranial forms within the same population? This seems quite as likely.

The illustrations in the work are faithfully and well executed from the objects, and add both to the beauty and utility of the volume.

LITERARY OUTFIT FREE.

Any one sending us $1.00 at once and mentioning "Science," will receive a copy of "Historical Sketches and Events in the Colonization of America," by H. H. Hall. A square 8vo. book (650 pages) 305 pages, illustrated. This is a regular $2.00 book and a bargain at that price.

200 Private Library Labels; they should be used by all who own books.

"The Library," a 12x18 inch sheet containing a brief list of most important standard and miscellaneous books in every department of literature. Intended for those who are about forming a library. Hints on what to buy, and how to buy them.

1 year's subscription to the "Literary Light," a monthly magazine of Ancient, Medieval and Modern Literature.

$1.00 actual value for $1.00. Sample copy of "Literary Light," 10 cents (postal card won't do). Address, Literary Light, 245 6th Ave., N.Y.
