RACES AND PEOPLES.

By DANIEL G. BRINTON, M.D.

"The book is good, thoroughly good, and will long remain the best accessible elementary ethnography in our language." - The Christian Union.

"We strongly recommend Dr. Brinton's 'Races and Peoples' to both beginners and scholars. We are not aware of any recent work on the science of which it treats in the English language." - Asiatic Quarterly.

"This book is an excellent one, and we heartily recommend it as an introductory manual of ethnology." - The Mentor.

"A useful and really interesting work, which deserves to be widely read and studied both in Europe and America." - Sloughton (Eng.) Herald.

"This volume is most stimulating. It is written with great clearness, so that anybody can understand, and while in some ways there is superficial grasp very well the complete field of humanism." - The New York Times.

"Dr. Brinton invents his scientific illustrations and measurements with an indescribable charm of narration, so that 'Races and Peoples,' awkwardly a record of discovered facts, is really a strong stimulant to the imagination." - Philadelphia Public Ledger.

"The work is indispensable to the student who requires an intelligent guide to the study of ethnographic reading." - Philadelphia Times.

Price, postpaid, $1.75.

THE AMERICAN RACE.
