Odd Apparatus

In preparing for "stock taking" we find some 200 pieces of odd or shopworn physical instruments that must be sold at once to make room for new goods.

Price being a secondary consideration, we have placed these instruments at very low figures; often a mere fraction of first cost; and solicit immediate correspondence with all who can use such apparatus.

We are sincere in believing this offer unusually important, and upon request will mail to any address descriptive circular No. 460, which gives full particulars.

Send for Abridged General Catalogue No. 219.
