SCIENCE, 47 Lafayette Pl., New York.

MUTUAL BENEFIT LIFE ASSOCIATION OF AMERICA.
240 Broadway, New York.

LIFE INSURANCE.
AT COST.

As safe as LAW, SCIENCE, and CAPITAL can make it.

Our plan is based upon an absolutely safe and practically demonstrated system. KNOWN AS THE

MUTUAL SYSTEM OF LIFE INSURANCE

In its Original Purity and Simplicity

It furnishes Insurance at Exact Cost upon the actual mortality, not upon an assumed death rate. The expenses of management are restricted to a limited amount; there are no stockholders to absorb profits, no surplus to be divided among its officers or directors, but all surplus accrues to members only.

The Membership of this Association is selected with the utmost care, from among the best business and professional men, thus to secure the highest grade of risks, and is distributed throughout the healthy portions of the United States—thus to avoid an excessive mortality occasioned by local epidemics.

SPECIAL FEATURES.

A Reserve Fund, to guarantee the permanency of the Association.

Graded Rates, so that the young and old will pay their share.

Selected Risks, so that the minimum mortality will be secured.

Tontine System, so that persistent members will secure large benefits.

An Open Ledger, so that the affairs of the Association may always be known.

A Trust Company as Trustees, so that the Reserve Funds of the Association will not be misappropriated.

The Officers and Directors, many of whom are men of large wealth, bankers, etc., with extended business experience, and others have had long and honorable experience in Life Insurance.

Expenses, limited to a uniform rate, charging no more on a risk at age 25 than at age 60.

Send for Circulars and Estimates.

HENRY E. SIMMONS, EDWARD HENRY KENT
Secretary, President.

240 BROADWAY, NEW YORK CITY.
