TOPICAL SCRAP-BOOK SYSTEM.

THE NEED OF IT.

Articles of great value are constantly appearing in the secular and religious periodicals; and any one who does not save valuable newspaper matter, is losing a great deal. The words of One wiser than Solomon, are pertinent here: "Gather up the fragments that remain, that nothing be lost."

But all the methods for preserving newspaper clippings, previously in use, have serious defects:—take too much time to find them, to fold, re-fold and replace them, and are not handy for rapid reference. Now the TOPICAL SCRAP-BOOK SYSTEM does away with all these difficulties. With this library any literary person secures (in handsome form, and at his fingers' ends) a systematic classification of all valuable newspaper matter. It is not one or two scrap-books filled with all sorts of matter, but a SEPARATE SCRAP-BOOK for each important subject, made expressly for the purpose, with the title lettered on the back. (See cut above.)

ITS ADVANTAGES.

1st. All the matter upon any given subject is collected together, and can be found in a moment.

2d. It saves time. There is no hunting to be done, or folding, re-folding, or replacing. A touch of mucilage at the top and bottom of an article, and it is in its place. This permits them to be removed when no longer desired, or parts of them to be cut out for platform or other use.

3d. It is handy for suggestion, as well as for reference,—a feature possessed by no other system.

4th. It is convenient in size, being no larger than an ordinary hand volume,—6½x10 inches,—yet large enough to preserve any amount of material, containing 120 pages.

5th. A handsome addition to the book shelves, filling them with a fine set of leather-backed books, looking like a finely-bound Encyclopedia,—and they are nothing less than that when filled with choice cuttings.

6th. And cheap beyond example,—a big point, for it enables a man to have a Library of such books instead of the usual one or two, and at a small outlay.

THE TITLES.

VIEWS OF EMINENT MEN WHO HAVE USED THEM.

Hon. Andrew D. White,
President Cornell University, Ithaca, N.Y.

It seems to me that you have hit upon an admirable thing. My only wonder, is that of Columbus's companions, in the setting up of the egg,—namely, that no one had done so good and simple a thing before.

Rev. W. M. Taylor, D.D., LL.D.,
Pastor Broadway Tabernacle, N.Y.

I received your specimen copy, and have been so much pleased with it, and with your whole plan, that I beg now to enclose check that you may send me twelve volumes, with the titles indicated below. I have lost a great deal for lack of such a series of books.

From "The Examiner," N.Y.

We have received a specimen of the "Scrap-Book Library" for inspection. It is the cheapest, most convenient, and best contrived, plan for permanently preserving newspaper clippings, that we have ever seen. In its special field, this series of books is without a peer."

Price.—The volumes are put at the marvelously low price of 75 cts. each, all charges prepaid; 5 per cent. discount on 6 volumes, 10 per cent. on 12.
