Contents

The Importance of Science in American Education:
Ernst A. Hauser ................................................. 643

Technical Papers
Studies on Pollination of Hevea Brasiliensis in
Puerto Rico: H. E. Warmke ........................................ 646
Rate of Circulation of the Body Fluid in Adult Tenebrio
molitor Linnaeus, Anasa tristis (de Geer), and Murgantia
histriomica (Hahn): Roderick Craig and N. A. Olson ... 648
An Instance of the Occurrence of Carcinogenic Substances
in Certain Barnacles: Michael B. Shimkin,
B. Kenneth Koe, and L. Zechmeister ..................... 650
An Analog of Histamine that Stimulates Gastric Acid
Secretion without other Actions of Histamine:
C. E. Rosiere and M. I. Grossman ......................... 651
Recovery of Tumor Cells from Effects of the Tumor-
inducing Principle in Crown Gall: Armin C. Braun .... 651
Structural and Insecticidal Relationships in Rotenone,
Methoxychlor, and DDT: R. W. Hummer and E. E. Kenaga 653
Results of a Preliminary Survey of Group Endings in
Zoological Classifications above the Category of
Genus: Leonard P. Schultz ...................................... 655
The Fungicidal and Nematicidal Properties of
Dibromobutene: W. A. Kreutzer et al. ...................... 657
The Equilibrium between Vitamin B₁₂ (Cyanocobalamin) and
Cyanide Ion: John B. Conn, Sara L. Norman,
and Thomas G. Wartman .................................... 658

Comments and Communications
Theory of Tastes and Odors; Cartesian Diver Balance;
Isolation of Histoplasma capsulatum and Allescheria
Boydii from Soil; Why Do Insects Have Six Legs? ........ 660

Book Reviews
Population Genetics and Animal Improvement; Learning
Theory and Personality Dynamics .......................... 663

News and Notes ..................................................... 665
Flare Stars and the Radio ...................................... 3
Meetings & Conferences ...................................... 14
