Determination of Isotopic Masses and Abundances by Mass Spectrometry: A. O. Nier .............................................. 737
Nuclear Binding Energies: J. Mattauch ...................................................... 745

News and Notes
Preliminary Announcement of Atlanta Meeting; and Regular Departments .......................................................... 751

Book Reviews
Progress in Biophysics and Biophysical Chemistry; Chemistry of Lichen Substances; Introduction to Theoretical Mechanics; The Application of Results of Research; Psychological Testing; Renal Function; Diagnostic Cytologique du Cancer Génital; Isotopic Gas Analysis for Biochemists; Transactions of the Symposium on Fluid Mechanics and Computing; New Books; and Miscellaneous Publications ........................... 765

Technical Papers
The Thalamus and Temporal Orientation: E. A. Spiegel et al. .......................... 771
Lack of Lens Induction by Eye Cup: M. Zalokar ........................................ 772
Ultraviolet Polymerization of Monomeric Methacrylates for Electron Microscopy: S. Weinreb ........................................ 774
Brei Fractionation: N. G. Anderson .......................................................... 775

Communications
Prepottery, Lithic Complex from Sonora, Mexico: G. F. Pay .................................................. 778
Selective Service Policy and Scientific Manpower: M. B. Visscher .......................... 778
New Apparatus for Prolonged Constant Infusion in the Unrestrained Animal: C. J. Hlad, Jr. et al. .................................................. 779
Calendar for Estimating Intervals in Days: G. J. Cox ........................................ 779
Rearrangement in the Reaction of 3-Bromopyridine with Sodium Amide and Sodioacetophenone: R. Levine and W. W. Leake .................................................. 780

Scientific Research Society of America .................................................. 7A
Meetings & Conferences ................................................................. 12A
Science 121 (3152), 7A-780.
