

Chromatography in a New Light  
Brighter Contrast—Better Definition

With  
**CHROMATO-VUE® Portable UV Darkroom  
and TRANSILLUMINATORS**

Paper chromatogram under ordinary ultraviolet illumination

Clearer definition, brighter contrast with Transilluminator Fluorescence

Now, thin layer and paper chromatography are more precise techniques with the improved CHROMATO-VUE® Cabinet and TRANSILLUMINATORS.

- Short wave (2537 Å) and long wave (peak at 3650 Å) sources in the CHROMATO-VUE® Cabinet quickly and accurately locate fluorescing and absorbing spots on chromatograms.
- MINERALIGHT® Short Wave and BLAK-RAY® Long Wave TRANSILLUMINATORS are positioned directly under and emit through chromatograms. Thus, greatly increased ultraviolet intensity turns dim or marginal fluorescence into clearly defined spots with brilliant contrast.

For complete information, write for Catalog S-150.

Looking  
for...

Borden's Dajac Laboratories offer over 300 reagents of unusual quality for medical research and biochemical testing. In addition to blue tetrazolium, our list of hand-crafted products includes other tetrazolium salts, enzyme substrates, fluorescent reagents, biological stains, amino acids, analytical reagents, plus sample and reagent kits. New reagents are regularly added as needs arise.

For complete information, write for a copy of our current catalog.

Published October 1965:

**SCIENCE IN JAPAN**

496 pp., illus., bibliog., index, \$13.00  
AAAS Members' Cash Orders \$11.00

This volume provides a unique opportunity for American scientists to get both a broad and a detailed picture of recent scientific and technological developments in Japan. Leading Japanese scientists discuss the organization of research in their country and review fundamental research in mathematics, biology, chemistry, physics, sociology, and psychology as well as applied research in agriculture and other fields.

**AIR CONSERVATION**

Report of the AAAS Air Conservation Commission

348 pp., illus., bibliog., index, \$8.00  
AAAS Members' Cash Orders \$7.00

Part One, Air Conservation and Public Policy, assembles the facts and identifies alternatives. Part Two, Summary of the Facts, is a concise report on the state of scientific knowledge in the field of air conservation. Part Three, Background Reports, the larger part of the book, consists of seven chapters of interest to scientists and specialists in other disciplines.
