

AAAS

SPEAKING OF SCIENCE

The first offering in a continuing series features 12 informal conversations with more than 20 of America's leading scientists. Among the subjects: The Mars Probe, Evolution and the Descent of Man, Advances in the Physical Sciences, Advances in Astronomy, Peace, and seven other timely and important subjects. The 12 recordings are on six cassettes (one complete 30-minute conversation on each side) for play-back on standard machines—packaged in a compact binder. Price: \$39.95.

AAAS SCIENCE BOOK LIST FOR CHILDREN (Third Edition)

A selected and annotated list of over 1500 science and mathematics books for children in elementary schools, and for children's collections in school, private and public libraries. Compiled by Hilary J. Deason. Price: \$8.95.

SCIENCE BOOKS—A QUARTERLY REVIEW

An invaluable aid to science education and library acquisition. The only publication devoted to the critical review of books in the sciences and mathematics at all educational levels—kindergarten through college—and for the nonspecialist adult reader. Published March, May, September and December. Price: \$10 per year.

 male and female*

**SENIOR
 ECOLOGIST**

DAMES & MOORE, consultants in the applied earth and life sciences has an immediate opening in its Cincinnati, Ohio office.

Position requires an interest in a consulting career oriented towards solving environmental problems for industrial clients.

You must have a Ph.D. in Ecology or Field Biology with training in Physiology. Familiarity with computer applications, biostatistics and experimental design. 10 years relevant experience, some of which may have been in teaching or research. Practical working knowledge of field sampling and laboratory methods and demonstrated capability to coordinate efforts of professionals in various technical fields.

Responsibilities involve design of multi-disciplined ecological programs and managements of all phases of these programs including defining project and program scope, estimating time schedules and milestones, determining personnel requirements and preparing budget estimates.

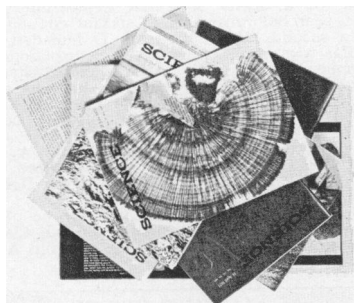

Position involves frequent travel.

Send resume & salary requirements to:

Do your
 copies
 look like
 this?

If so, you need our attractive *Science* Binders to keep your copies of *Science* in good condition, and available for quick, easy reference. Simply snap the magazines in or out in a few seconds—no punching or mutilating. They open FLAT—for easy reference and readability. Sturdily constructed, these maroon imitation leather binders stamped in gold leaf will make a fine addition to your library.

Science Binders hold one three-month volume of *Science*. They have a 3-inch back and 14 fasteners. \$5.00 each. Four binders, \$17.00.

For orders outside the United States add 50 cents per binder. Imprint: name of owner, year of issues (for example: 1972-4 or vol. 178), add 85 cents per binder.

LIPID CHEMIST

Postdoctoral fellowship (2 years), Ph.D. or M.D. with experience in lipid chemistry. To perform studies of brain tissue glycolipids.

Location: N.Y. Metropolitan area in a well-equipped University-affiliated Hospital Research Institute.

Salary: \$13,000 (plus liberal fringe benefits). Send curriculum vitae and two references to:

Box 350, SCIENCE

ANNOUNCEMENT

The Division of Research Resources, National Institutes of Health, is attempting to evaluate and refine the PROPHET System—a national computer resource established exclusively to serve those who study chemical/biological interrelationships. PROPHET consists of a large, centralized, research computer system accessible via remote graphic display terminals from anywhere in the continental United States. By making powerful computer-based information-handling methods available to individual laboratory and clinical investigators in a convenient and easy-to-use form, PROPHET can facilitate inquiry into how chemical substances influence—and are influenced by—life processes.

Investigators who are interested in using the PROPHET System in their research and participating in the NIH evaluation/refinement effort can get additional information by writing or calling Mrs. Lillian Golovin, Chemical/Biological Information-Handling Program, Division of Research Resources, Building 31, Room 5B25, National Institutes of Health, Bethesda, Maryland 20014, telephone 301-496-5468.

FELLOWSHIPS

POSTDOCTORAL FELLOW IN ENZYMOLOGY.

POSTDOCTORAL FELLOW IN ORGANIC CHEMISTRY with emphasis on synthesis and protein reactions.
