## COVER

Color composite pictures of Gany-  
 mede. Each is a superposition of two  
 monochrome images, with a third pri-  
 mary color artificially added. Top pic-  
 ture uses image data taken by the Pio-  
 neer 10 spacecraft. The remaining two  
 pictures are from restorations of these  
 data by linear convolution (middle) and  
 by maximum entropy (bottom). See  
 page 1237. [B. R. Frieden and W. Swin-
