

SCIENCE

EDITORIAL COMMITTEE: S. NEWCOMB, Mathematics; R. S. WOODWARD, Mechanics; E. C. PICKERING, Astronomy; T. C. MENDENHALL, Physics; R. H. THURSTON, Engineering; IRA REMSEN, Chemistry; J. LE CONTE, Geology; W. M. DAVIS, Physiography; O. C. MARSH, Paleontology; W. K. BROOKS, Invertebrate Zoölogy; C. HART MERRIAM, Vertebrate Zoölogy; S. H. SCUDDER, Entomology; N. L. BRITTON, Botany; HENRY F. OSBORN, General Biology; H. P. BOWDITCH, Physiology; J. S. BILLINGS, Hygiene; J. MCKEEN CATTELL, Psychology; DANIEL G. BRINTON, J. W. POWELL, Anthropology.

FRIDAY, DECEMBER 20, 1895.

THE LAW OF THE LONG RUN.

CONTENTS:

<i>The Law of the Long Run</i> : T. C. MENDENHALL.....	825
<i>Horticulture at Cornell</i> : L. H. BAILEY.....	831
<i>On School Hygiene</i> : EDWARD M. HARTWELL.....	839
<i>A Simple Apparatus for Collecting Samples of Water at Various Depths</i> : G. C. WHIPPLE.....	841
<i>The Lobachévski Prize</i> : GEORGE BRUCE HALSTED.....	842
<i>American Society of Mechanical Engineers</i>	843
<i>Current Notes on Anthropology (XVI.)</i> :—	
<i>The Pithecanthropus erectus; Affinities of the Chaco Languages</i> : D. G. BRINTON.....	845
<i>Scientific Notes and News</i> :—	
<i>Astronomical</i> : H. J. <i>Bibliographies of the Sciences; The Anniversary Meeting of the Royal Society; The American Society of Naturalists; General</i>	845
<i>University and Educational News</i>	849
<i>Discussion and Correspondence</i> :—	
<i>A Last Word on Erect Vision</i> : JOSEPH LE CONTE. <i>Mountain Climbers and the Perception of Distance</i> : HIRAM M. STANLEY. <i>Mr. Spencer on Tactual Perception and 'Natural Selection.'</i> J. MCKEEN CATTELL. <i>Bibliography of North American Paleontology</i> : CHARLES R. KEYES....	850
<i>Scientific Literature</i> :—	
<i>Meyrick's Handbook of British Lepidoptera</i> : S. H. SCUDDER. <i>Debierre's Atlas d'ostéologie</i> : FRANK BAKER. <i>Pilsbry's Catalogue of the Marine Mollusks of Japan</i> : W. H. DALL.....	854
<i>Academies and Societies</i> :—	
<i>The New York Section of the American Chemical Society</i> : DURRAND WOODMAN. <i>The Anthropological Society of Washington</i> : GEORGE R. STETSON. <i>Geological Conference of Harvard University</i> : T. A. JAGGAR, JR. <i>Alabama Industrial Scientific Society</i> : EUGENE A. SMITH. <i>St. Louis Academy of Science</i> : A. W. DOUGLAS.....	856
<i>Scientific Journals</i> :—	
<i>The American Geologist</i>	860
<i>New Books</i>	860

MSS. intended for publication and books, etc., intended for review should be sent to the responsible editor, Prof. J. McKeen Cattell, Garrison on Hudson, N. Y. Subscriptions and advertisements should be sent to SCIENCE, 41 N. Queen St., Lancaster, Pa., or 41 East 49th St., New York.

"MEN were surprised to hear that not only births, deaths and marriages, but the decisions of tribunals, the results of popular elections, the influence of punishments in checking crime, the comparative values of medical remedies, the probable limits of error in numerical results in every department of physical inquiry, the detection of causes, physical, social and moral, nay even the weight of evidence and the validity of logical argument, might come to be surveyed with the lynx-eyed scrutiny of a dispassionate analysis."

So wrote Sir John Herschel, a good many years ago, of the *Calculus of Probabilities*, which had just come into prominence through important practical applications. The 'Doctrine of Chance' is apparently miscalled because it is chiefly applied to the study and development of natural laws in the operation of which there can be no such thing as chance.

Popularly the word 'chance' is often used as if to imply the *absence* of any cause, but this is an unreasonable, if not an unthinkable condition. Really such words as 'chance,' 'accident' and the like imply only the absence of any assigned or recognized cause, and the doctrine of chances is a study and development of the laws relating to a series or aggregation of events, concerning the individual components of which we are absolutely ignorant. Thus, if
