COVER

Oldest known New World fly from the Late Triassic-age rocks of North Carolina. See page 729. [David Holbrook, Peabody Museum of Natural History, New Haven, Connecticut 06520]

The American Association for the Advancement of Science was founded in 1848 and incorporated in 1874. Its objects are to further the work of scientists, to facilitate cooperation among them, to foster scientific freedom and responsibility, to improve the effectiveness of science in the promotion of human welfare, and to increase public understanding and appreciation of the importance and promise of the methods of science in human progress.
