COVER

London Fever Hospital, mid-1800's. The disappearance of fever hospitals in developed countries is but one of the changes brought about by the development of antimicrobial drugs. See page 240. [National Library of Medicine, Bethesda, Maryland]

The American Association for the Advancement of Science was founded in 1848 and incorporated in 1874. Its objects are to further the work of scientists, to facilitate cooperation among them, to foster scientific freedom and responsibility, to promote the effectiveness of science in the promotion of human welfare, and to increase public understanding and appreciation of the importance and promise of the methods of science in human progress.
