SCIENTIFIC SURVEYS OF THE PHILIPPINE ISLANDS.

MESSAGE FROM THE PRESIDENT OF THE UNITED STATES.

To the Senate and House of Representatives:

Circumstances have placed under the control of this government the Philippine Archipelago. The islands of that group present as many interesting and novel questions with respect to their ethnology, their fauna and flora, and their geology and mineral resources as any region in the world. At my request, the National Academy of Sciences appointed a committee to consider and report upon the desirability of instituting scientific explorations of the Philippine Islands. The report of this committee, together with the report of the Board of Scientific Surveys of the Philippine Islands, including draft of a bill providing for surveys of the Philippine Islands, which board was appointed by me, after receiving the report of the committee appointed by the National Academy of Sciences, with instructions to prepare such estimates and make such suggestions as might appear to it pertinent in the circumstances, accompanies this message.

The scientific surveys which should be undertaken go far beyond any surveys or explorations which the government of the Philippine Islands, however completely self-supporting, could be expected to make. The surveys, while of course beneficial to the people of the Philippine Islands, should be undertaken as a national work for the information not merely of the people of the
