R&D Money Doesn't Grow on Trees

So, whether you're working in the public or private sectors, for a university or national laboratory, in government or business, it's up to you to find out where the R&D dollars are hiding and how to go about getting them after you've found them.

The books in the Research and Development: AAAS Report Series can help you do this in two ways.

1. Annual R&D Reports — written by experts in the field — explore federal policies, budgetary concerns, the economy, and international and domestic developments as they relate to R&D policy making for the coming fiscal year.
2. Subsequent R&D Colloquium Proceedings — featuring leaders from government, industry, universities, and other parts of the scientific community — give you the texts of presentations, question-and-answer periods, and discussions from annual AAAS Colloquia on R&D Policy.

Order the Research and Development: AAAS Report Series today. In these money-hard times, it's an investment you can't afford to miss out on.

<p>Special Offer 5-volume set of either the Reports or Colloquium Proceedings, \$25.00. Entire 10-volume series, \$45.00. AAAS Sales Dept. L-2H-80, 1515 Mass Ave., NW, Washington, DC 20005. Orders under \$10.00 must be prepaid.
