

Call for Symposia Proposals

DETROIT MEETING—26-31 May 1983

AAAS members are invited to submit symposium proposals for the next Annual Meeting in Detroit, 26-31 May 1983. Please complete the form below, attach a "Synopsis of Objectives" (about 200 words), and send it to us **not later than 1 August 1982**.

We are particularly interested in symposia dealing with the latest developments in science and technology, and the implications of these developments for society.

All symposium proposals are subject to review. If the information submitted is inadequate for reviewing, the proposal will be returned. Endorsement (sponsorship) by a AAAS Section Committee expedites the review process. It is therefore in the interest of the proposer to send a *copy* of the proposal to the appropriate Section Secretary (see table of contents page of

Science for names) for endorsement at the same time the *original* is sent to the AAAS Meetings Office.

Speakers should *not* be confirmed at this time; however, sufficient information about probable speakers and their topics should be provided to allow for evaluation of the proposal.

Some Deadlines

Early October: You will be notified about acceptance, conditional acceptance, or non-acceptance of your proposal. Further information will be provided at that time.

Early November: Preliminary programs with confirmed speakers are due.

Mid January: Final program copy, suitable for publication, is due.

PROPOSED SYMPOSIUM (APPROXIMATELY 200 WORDS).**

R&D Money Doesn't Grow on Trees

So, whether you're working in the public or private sector, for a university or national laboratory, in government or business, it's up to you to find out where the R&D dollars are hiding and how to go about getting them after you've found them.

The books in the Research and Development: AAAS Report Series can help you do this in two ways.

1. Annual R&D Reports—written by experts in the field—explore federal policies, budgetary concerns, the economy, and international and domestic developments as they relate to R&D policy making for the coming fiscal year.
2. Subsequent R&D Colloquium Proceedings—featuring leaders from government, industry, universities, and other parts of the scientific community—give you the texts of presentations, question-and-answer periods, and discussions from annual AAAS Colloquia on R&D Policy.

Order the Research and Development: AAAS Report Series today. In these money-hard times, it's an investment you can't afford to miss.

New Titles

R&D: AAAS Report VI, 1982
