THE AMERICAN ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE. SECTION I—SOCIAL AND ECONOMIC SCIENCE.

THIRTY-FIVE papers were on the printed program, of which seventeen were read in person, seven by title with abstracts of contents presented and eight papers were never forwarded by the authors, for various reasons. The statistical paper by Professor Arthur Lefevre on 'Public Education in Texas,' arrived too late for use.

Professor W. R. Lazenby's paper on 'Relations of Forestry to Soil and Climate' will appear in the *Proceedings* of the Ohio State Forestry Society at some future date.

The paper read by Professor Bruce R. Payne, University of Virginia, on 'The Social Service of the Public High School,' will also be published later.

Attendance at the meetings ranged from fifteen to fifty persons. Holding the sessions at the board of trade rooms was a mistake. The business people did not attend, and we were too far away from the other sections to admit of their members attending.

The following officers were elected:

Sectional Committee—Irving Fisher, Charles A. Conant, Carroll D. Wright (five years), E. L. Corthell (four years), W. R. Lazenby (three years), Frank A. Rutter (two years) and B. E. Fernow (one year).

Member of Council—Marcus Benjamin.

Member of General Committee—Le Grand Powers.

Possibilities of Cotton Warehousing from the Producer's Standpoint: EUGENE WILLIAMS, Waco, Texas.

MSS. intended for publication and books, etc., intended for review should be sent to the Editor of SCIENCE, Garrison-on-Hudson, N. Y.
