POSITIONS OPEN

The DEPARTMENT of AGRONOMY and HORTICULTURE
University of Nebraska, Lincoln

NUTRIENT MANAGEMENT SPECIALIST, ASSISTANT PROFESSOR, 12-month, tenure-track position with 50 percent extension and 50 percent research responsibilities. The position is located at the West Central Research and Extension Center at North Platte, Nebraska. The successful candidate will lead a research/extension program to improve the profitability and impact of nutrients from production agriculture as influenced by nutrient management, water use, crop rotations, and tillage practices in irrigated and rainfed cropping systems with limited water. Ph.D. in soil science, agronomy, or closely related discipline; demonstrated ability to publish original research in peer-reviewed journals; research experience and expertise with nutrient response, soil testing, and nutrient use efficiency; the ability to work as a team member; and strong written/verbal communications skills are required. Background in saline/sodic soils, micronutrients, and/or geospatial data analysis is desirable. Relevant experience in grant writing capability is desired for this position. To review a complete listing of the position description and to apply, go to **website: <http://employment.unl.edu>** and search for requisition #080379 and complete the Faculty Academic Administrative Information Form. Attach curriculum vitae, letter of application, and have three letters of reference e-mailed to **e-mail: cwendt1@unl.edu** no later than June 23, 2008. *The University of Nebraska is committed to a pluralistic campus community through Affirmative Action, Equal Opportunity, work-life balance, and dual careers.*

FACULTY POSITION CELLULAR IMMUNOLOGIST

The Department of Biochemistry and Microbiology in the Joan C. Edwards School of Medicine and the Cell Differentiation and Development Center at Marshall University seek candidates for a full-time, tenure-track **ASSISTANT PROFESSOR** in cellular immunology. Applicants should have a Ph.D. and/or M.D. or equivalent degree and postdoctoral experience. Although all well-qualified candidates will be considered, preference will be given to individuals with research interests in the epigenetic regulation of immune response or the role of the immune system in cardiovascular disease. The successful candidate will be expected to establish an externally funded research program and participate in the teaching of medical microbiology or immunology courses. Excellent startup funds, state-funded salary commensurate with experience, and modern research facilities will be provided. Applications should include curriculum vitae, representative reprints, a summary of past experience, a short statement regarding research interests and future plans, and a list of three references with postal and e-mail addresses. All application materials should be e-mailed to **Dr. Donald Primerano, e-mail: primeran@marshall.edu. Telephone: 304-696-7335**. Review of applications will begin on May 1, 2008. *The Marshall University is an Equal Opportunity/Affirmative Action Employer and has an affirmative duty to reasonably accommodate otherwise qualified individuals with a disability.*

FULL-TIME FACULTY POSITION Chemistry/Environmental Chemistry PN 20501

Lone Star College-Kingwood in Texas is looking for an environmentally oriented **CHEMIST** or **BIOGEOCHEMIST** to teach in the prestigious Lone Star College two-year system. Candidate must possess an interest in teaching introductory chemistry and possibly environmental science. Research or other scholarship activity is strongly encouraged but not directly supported. A commitment to quality teaching is essential, and an interest in online formats is an institutional priority. Candidate may have future opportunities in administrative leadership.

Job description and application available at **website: <http://www.lonestar.edu>**. *Criminal background check required. Affirmative Action/Equal Employment Opportunity.*

POSITIONS OPEN

DEPARTMENT of PATHOLOGY CHAIR POSITION

Tulane University School of Medicine seeks an academic leader to serve as Chair of the Department of Pathology. The Department currently has 16 full-time faculty and a rich and growing clinical practice providing services to the Tulane Hospital and Clinic system. The Department's research endeavors extend from basic molecular mechanisms of cell function to translational studies of disease mechanisms, diagnosis, and treatment. The Department also has an extensive teaching program including residency, postdoctoral training, and undergraduate medical training.

Candidate should have an outstanding record of accomplishment in basic and/or clinical research and have a nationally and internationally recognized research program. Candidate will be expected to facilitate the expansion of the research arm of the Department. The candidate should have a documented record of leadership, administrative ability, and communication and teaching skills. Candidate must be a Board-certified **PATHOLOGIST (M.D.)**. In addition to curriculum vitae the applicant should submit a letter describing research, teaching, service administrative experience, previous mentoring, and vision in building interdisciplinary programs and resources. Nominations and/or applications should be e-mailed to **e-mail: sdawsey@tulane.edu** or mailed to: **Steven M. Hill, Ph.D., Professor and Chair, Department of Structural and Cellular Biology, SL49, Tulane University Health Sciences Center, School of Medicine, 1430 Tulane Avenue, New Orleans, LA 70112**. *Tulane University is an Affirmative Action/Equal Opportunity Employer. Women and minorities are encouraged to apply.*

ASSISTANT PROFESSOR (TENURE TRACK)

Cancer Cell Biology. The Institute for Molecular Medicine (IMED) and the Department of Molecular and Medical Pharmacology at UCLA are recruiting a Ph.D., M.D., or M.D./Ph.D. interested in cancer cell biology, especially in the mechanism of cancer cell metabolism. Candidates are expected to have a demonstrated commitment, expertise, and experience in cell signaling and metabolic regulation.

The Institute for Molecular Medicine is a translational institute in the David Geffen School of Medicine at UCLA, bringing together the fundamental efforts and learning curves in genomics, proteomics, nanotechnologies, biotechnologies, systems biology, and molecular imaging. IMED's goal is to integrate all this into a new individualized and personalized medicine by developing molecular diagnostics and molecular therapeutics based on the evolving knowledge base of the systems biology of disease.

Send curriculum vitae, a two-page description of research accomplishments, a two-page research plan, and three letters of recommendation to: **IMED Search Committee, Institute for Molecular Medicine, David Geffen School of Medicine at UCLA, 700 Westwood Plaza, P.O. Box 951735, Los Angeles, CA 90095-1735**. All materials must be received by July 1, 2008.

The University of California is an Equal Opportunity Employer committed to excellence through diversity. All qualified applicants are encouraged to apply, including minorities and women.

CAREER OPPORTUNITY

This unique program offers the candidate with an earned Doctorate in the life sciences the opportunity to obtain the Doctor of Optometry (OD) degree in 27 months (beginning in March of each year). Employment opportunities exist in research, education, industry, and private practice. Contact the **Admissions Office, telephone: 800-824-5526 at the New England College of Optometry, 424 Beacon Street, Boston, MA 02115**. Additional information at **website: <http://www.neco.edu>**, e-mail: admissions@neco.edu.
