

# Want to speed up your protein detection?

## Our rapid ELISA kits give you fast results!

### Detect your target first time

- Average time – 2 hours per assay!
- High sensitivity kits available, 10 times more sensitive than standard ELISA kits (sensitivity < 1 pg/mL)
- Straight forward testing with only 5 steps
- Targets against cytokines, cytokine receptors, CD markers, adhesion molecules, apoptosis proteins with an ever growing portfolio of kits

### 1000 Abpoints for your feedback

Receive 1000 Abpoints for the first review written for any Abcam ELISA, ELIPAIR, ELISPOT or FLUOROSPOT product.

Read more on this offer at: [www.abcam.com/ELISAbpoints](http://www.abcam.com/ELISAbpoints)

Visit [www.abcam.com/ELISA](http://www.abcam.com/ELISA) for our full range of ELISA, ELIPAIR, ELISPOT and FLUOROSPOT kits.
