

YOUNG INVESTIGATORS AWARDS AND POSTDOC

opportunities

in Brazil

The São Paulo Research Foundation (FAPESP), one of the leading Brazilian agencies dedicated to the support of research, has ongoing programs and support mechanisms to bring researchers from abroad to excellence centers in São Paulo:

The Young Investigators Awards selects scientists who have had a few years of post-doctoral experience and demonstrated research leadership capabilities to lead the creation of new researchers groups in São Paulo, Brazil. The selected candidates will start and lead their own research groups working in internationally competitive themes – www.fapesp.br/yia

FAPESP Post-Doctoral Fellowship is aimed at distinguished researchers with a recent doctorate degree and a successful research track record. Postdoc fellowships are available when calls for applications are issued internationally, or as individual fellowships requested on demand.

In the first case, positions are advertised at www.fapesp.br/opportunidades and candidates are selected through international competition. In the second, the proposal must represent an addition to a pre-existent research group and should be developed in association with faculty in higher education and research institutions in São Paulo.
