School of Medicine & Health Sciences

THE GEORGE WASHINGTON UNIVERSITY

FACULTY POSITIONS—BIOCHEMISTRY AND MOLECULAR MEDICINE

The Department of Biochemistry and Molecular Medicine invites applications for tenure-track faculty positions in a department focused on using a variety of approaches (biochemistry, molecular genetics, bioinformatics, and genomics) to address important biological problems with relevance to human health. Areas of research interest include, but are not limited to, Metabolic Biology, Gene Regulation, and Cell-Cell Communications. Our institution's location close to the NIH, Children's National Health System, and other institutions provides outstanding opportunities for collaboration. Opportunities are also available to collaborate with colleagues in the George Washington Cancer Center. Additional responsibilities include engaging in the educational programs of the department and service to the institution. Appointments will be made at a rank (Assistant/Associate Professor) and salary commensurate with experience and include a competitive start-up package. Basic Qualifications: Applicants must hold a Ph.D. and/or M.D. degree (or equivalent) in an appropriate discipline with a strong publication record and a robust research program. Application process: To be considered, please complete an online faculty application at: <http://www.gwu.jobs/postings/64190> and upload a current Curriculum Vitae, cover letter, and a statement of current and future research interests (3-page limit). You will also be asked to provide the names and contact information for references. Review of applications will begin on **February 26, 2019** and will continue until the position is filled. Only complete applications will be considered. *The George Washington University is an Equal Employment Opportunity/Affirmative Action Employer that does not unlawfully discriminate in any of its programs or activities on the basis of race, color, religion, sex, national origin, age, disability, veteran status, sexual orientation, gender identity or expression, or on any other basis prohibited by applicable law.*

myIDP: A career plan customized for you, by you.

For your career in science, there's only one **Science**

**Recommended by
leading professional
societies and the NIH**

Features in myIDP include:

- Exercises to help you examine your skills, interests, and values.
- A list of 20 scientific career paths with a prediction of which ones best fit your skills and interests.
- A tool for setting strategic goals for the coming year, with optional reminders to keep you on track.
- Articles and resources to guide you through the process.
- Options to save materials online and print them for further review and discussion.
- Ability to select which portion of your IDP you wish to share with advisors, mentors, or others.
- A certificate of completion for users that finish myIDP.

SENIOR SCIENTIST I MICROBIOLOGY AND IMMUNOLOGY

A Senior Scientist I position is available in the laboratory of Dr. Thomas Geisbert in the Department of Microbiology & Immunology at the University of Texas Medical Branch. We are looking for a highly motivated researcher to participate in studies on the pathogenesis and development of medical countermeasures against emerging and re-emerging viruses that require BSL-4 containment. The successful candidate will have opportunities to participate in ongoing projects and possibly develop new projects, and is expected to be knowledgeable in standard virology, molecular biology, and immunology techniques, and have experience with both in vitro and animal studies. The successful candidate must have strong writing skills and demonstrate the ability to write progress reports and manuscripts, which is an essential component of the position. Previous experience in BSL-3 is preferred and the ideal candidate would have experience in BSL-4. Working in Biosafety Level (BSL)-3 and BSL-4 environments will be a requirement of the position.

Required Qualifications: • Ph. D, M.D, D.O., or D.V.M in related field and 6 years of related experience with Peer Reviewed Publications; • Prior experience with Virology is required.

Preferred Qualifications: • Prior experience in BSL-3 is preferred and prior experience in BSL-4 is highly desired; • Prior experience with Molecular Biology, Immunology, and Pathology is highly desired; • Demonstrated experience writing technical reports, progress reports, and/or manuscripts is highly desired as well.

UTMB has several highly interactive research centers, biomedical institutes, and a national biocontainment laboratory with excellent infrastructure to conduct research at BSL2, -3 and -4 on diverse animal models of infectious diseases. The Department, with 31 full-time faculty members, is ranked among the top of its peer departments in NIH funding. Interested candidates should apply to Job id #63820, Senior Scientist I via the UTMB careers website at <https://www.utmb.edu/careers/>.

UTMB Health strives to provide equal opportunity employment without regard to race, color, national origin, sex, age, religion, disability, sexual orientation, gender identity or expression, genetic information or veteran status. As a Federal Contractor, UTMB Health takes affirmative action to hire and advance women, minorities, protected veterans and individuals with disabilities.

FRIEDRICH-ALEXANDER
UNIVERSITÄT
ERLANGEN-NÜRNBERG
NATURWISSENSCHAFTLICHE
FAKULTÄT

The Faculty of Sciences at Friedrich-Alexander-Universität Erlangen-Nürnberg (FAU) invites applications for a

W2 Professorship for Inorganic Chemistry (Associate Professor)

at the Department of Chemistry and Pharmacy. The professorship is a full-time and permanent position to be filled by 01.10.2019.

We seek to appoint an expert with an internationally visible research and teaching profile. The preferred research focus area is in modern inorganic chemistry. Of particular interest are investigations towards the development of self-assembled nanostructured and colloidal systems, and into (electro-)catalytic processes at the interface between molecular and materials science for sustainable chemistry. A potential for active participation in current and future research initiatives within the department at FAU is appreciated.

For further information and the application guidelines please see <https://www.fau.eu/university/careers-at-fau/professorships/>

Please submit your complete application documents (CV, list of publications, list of lectures and courses taught, copies of certificates and degrees, list of third-party funding) online at <https://berufungen.fau.de> by **01.04.2019**, addressed to the Dean of the Faculty of Sciences. Please contact nat-dekanat@fau.de with any questions.
