myIDP: A career plan customized for you, by you.

Visit the website and start planning today!
myIDP.sciencecareers.org

Features in myIDP include:

- Exercises to help you examine your skills, interests, and values.
- A list of 20 scientific career paths with a prediction of which ones best fit your skills and interests.
- A tool for setting strategic goals for the coming year, with optional reminders to keep you on track.
- Articles and resources to guide you through the process.
- Options to save materials online and print them for further review and discussion.
- Ability to select which portion of your IDP you wish to share with advisors, mentors, or others.
- A certificate of completion for users that finish myIDP.

For your career in science, there’s only one Science

A Senior Scientist I position is available in the laboratory of Dr. Thomas Geisbert in the Department of Microbiology & Immunology at the University of Texas Medical Branch. We are looking for a highly motivated researcher to participate in studies on the pathogenesis and development of medical countermeasures against emerging and re-emerging viruses that require BSL-4 containment. The successful candidate will have opportunities to participate in ongoing projects and possibly develop new projects, and is expected to be knowledgeable in standard virology, molecular biology, and immunology techniques, and have experience with both in vitro and animal studies. The successful candidate must have strong writing skills and demonstrate the ability to write progress reports and manuscripts, which is an essential component of the position. Previous experience in BSL-3 is preferred and the ideal candidate would have experience in BSL-4. Working in Biosafety Level (BSL)-3 and BSL-4 environments will be a requirement of the position.

**Required Qualifications:** • Ph. D, M.D, D.O., or D.V.M in related field and 6 years of related experience with Peer Reviewed Publications; • Prior experience with Virology is required.

**Preferred Qualifications:** • Prior experience in BSL-3 is preferred and prior experience in BSL-4 is highly desired; • Prior experience with Molecular Biology, Immunology, and Pathology is highly desired; • Demonstrated experience writing technical reports, progress reports, and/or manuscripts is highly desired as well.

UTMB has several highly interactive research centers, biomedical institutes, and a national biocontainment laboratory with excellent infrastructure to conduct research at BSL2, -3 and -4 on diverse animal models of infectious diseases. The Department, with 31 full-time faculty members, is ranked among the top of its peer departments in NIH funding. Interested candidates should apply to Job id #63820, Senior Scientist I via the UTMB careers website at [https://www.utmb.edu/careers/](https://www.utmb.edu/careers/).

**UTMB Health strives to provide equal opportunity employment without regard to race, color, national origin, sex, age, religion, disability, sexual orientation, gender identity or expression, genetic information or veteran status.
