

President

The Science Philanthropy Alliance seeks a president who will lead the organization in its mission to encourage, secure and advise philanthropic support for science and to promote cooperation among the member foundations to achieve greater impact. The accomplished scientist and seasoned leader selected for this half-time position will head a dedicated staff and core group of senior science advisers in an alliance that is currently supported by more than two dozen affiliated philanthropies. Qualifications include a strong record of scientific accomplishment, success as an institutional leader, and experience in gaining philanthropic support for science.

The Alliance is currently headquartered in Palo Alto, though its work takes place in various parts of the United States and occasionally in other countries. Competitive salary and benefits.

Candidates are invited to apply by **30 June 2019**. Inquiries and letters of interest with a current cv should be sent to:

Christine Miller
Office of Human Resources
Gordon and Betty Moore Foundation
1661 Page Mill Rd
Palo Alto CA 94304
(christine.miller@moore.org)

PERSONALBERATUNG

The Helmholtz-Zentrum Dresden-Rossendorf (HZDR) is a research institute with approx. 1,200 employees and is a member of the Helmholtz Association of German Research Centres. The HZDR carries out fundamental research in the areas of matter, energy and health. The focus of this work is on the understanding of the states of matter and material research. To this end, the centre also manages the three major research infrastructures, ELBE, the Ion Beam Centre and the High Magnetic Field Laboratory for a broad user community. The scope of research activities ranges from fundamental research to processes on a pilot-plant scale. More detailed information on the areas of work may be found under www.hzdr.de.

// At the Helmholtz-Zentrum Dresden-Rossendorf e.V. the position of

THE SCIENTIFIC DIRECTOR

is planned to be filled by 1 April 2020. It is intended to pursue a joint appointment as professor with the Technical University of Dresden.

// The new Scientific Director will represent the centre and its research in public, in particular at the interface between science and politics, knows the German and international scientific system well and has an entrepreneurial orientation. She/he will additionally manage both the structural development of the centre within the Helmholtz Association and the collaboration with strategic partners (in particular with the research alliance of DRESDEN-concept, universities, XFEL and ESRF).

// The prime task of the new Scientific Director will be the ongoing development of the research profile at a top international level in the three research areas of matter, energy and health as part of the programme-oriented promotion of the Helmholtz Association. Within this, it is intended to make even greater use of available synergy potential within and between the various areas. This also includes the further planning of a new and widely applicable research infrastructure at HZDR in succession to ELBE.

// A recognised scientific and technical profile, coupled with extensive management experience in the design of complex organisations, is essential for this outstanding position. Experience in the project management of interdisciplinary undertakings and in the establishment and operation of research infrastructures, preferably also at an international level, is essential. It is expected in particular that the candidate possesses a capability for conceptual planning, creativity and assertiveness in addition to experience in international collaboration and skills in the communication and transfer of research and science into society. The vacant position requires convincing leadership qualities, decision-making powers, a warm and outgoing nature both internally and externally and the willingness and ability to communicate with and motivate staff.

// The appointment is for a period of five years. A reappointment is possible. The position comes with remuneration at an international level in accordance with the flexible options contained in the German state "W" salary scale plus the option of performance-related salary. The members of the Helmholtz Association have set themselves the goal of the promotion of women in executive positions. Applications from women will therefore be explicitly welcomed. Applicants who are severely disabled and equivalent persons with equal qualification and aptitude will be given preferential consideration.

// Please note the data protection instructions given under the link https://www.hzdr.de/datenschutz_hinweis.

// Our consultant, Prof. Dr. Jürgen Staupe, will be happy to make initial contact with you under +49 177 53 70 351. Please send your application with detailed documents in purely electronic form (PDF) by 11 June 2019 at the latest to:

MUNI AWARD IN SCIENCE AND HUMANITIES

Outstanding scientists from all fields of research are invited to apply for the prestigious individual MUNI Award in Science and Humanities. This is in the Czech context an exceptional grant funded by the internal Grant Agency of Masaryk University (GAMU). It gives the researcher sufficient financial support and facility to further develop excellency in his/her research. Thus, MUNI Award creates a unique career opportunity.

The Award holder will be offered:

- **Tenure Track Professorship,**
- **Budget up to EUR 1,000,000 for the period of 5 years,**
- **Laboratory and office space,**
- **Access to the state-of-the-art research equipment,**
- **Welcome service and administrative support provided by the Masaryk University.**

Profile of the Award holder:

1. ERC Grant Holder or
2. ERC applicant with mark A from Step 2 or the ERC evaluation process or
3. Outstanding Researcher, holder of a prestigious individual grant comparable to ERC, with a track record of publications in high-impact journals.

For further information please visit the GAMU website: <https://gamu.muni.cz/en/mash>

Informal inquiries may be directed to MU Vice-Rector for Research: gamu@muni.cz

Please submit your application by e-mail to gamu@muni.cz and quote "MUNI Award" in the subject before **September 23rd 2019**.

The applications will be reviewed by an international and multidisciplinary committee immediately after the deadline. Short-listed candidates will be invited for an interview within two months of the deadline.
