### Pharmacology Tenure Pathway Faculty Position

The Department of Pharmacology at the University of Vermont invites applications for a faculty position at the Assistant Professor level on the Tenure Pathway, although Associate and Full Professor candidates will be considered.

Applicants should have a Ph.D. and/or M.D. degree and be committed to excellence in both research and the teaching of Pharmacology. We are seeking candidates who have a record of research excellence in areas that complement existing programs within the Department and who are applying innovative research strategies and approaches. Our faculty have diverse interests that include neurovascular and cardiovascular regulation and cellular signaling mechanisms associated with brain health and disease states. The candidate is expected to maintain an independent, extramurally funded research program. The candidate also must be willing to team-teach pharmacology in undergraduate, medical, and graduate school courses. Start-up funds will be competitive.

The University of Vermont is especially interested in candidates who can contribute to the diversity and inclusive excellence of the academic community through their teaching, service and research, scholarship or creative arts. Applicants are required to submit a separate statement of advancing diversity and inclusive excellence.

We are an educationally purposeful community seeking to prepare students to be accountable leaders in a diverse and changing world. Members of the University of Vermont community embrace and advance the values of Our Common Ground: Openness, Respect, Responsibility, Integrity, Innovation, and Justice. The successful candidate will demonstrate a strong commitment to the ideals of accessibility, inclusiveness, and academic excellence as reflected in the tenets of Our Common Ground.

The University of Vermont is an Equal Opportunity/Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, protected veteran status, or any other category legally protected by federal or state law. The University encourages applications from all individuals who will contribute to the diversity and excellence of the institution.

Review of applications will begin immediately and continue until the position is filled. Include a CV, research plan, teaching statement and experience, diversity statement, and the names and email addresses of three references. After the initial review of applications, references may be contacted to submit their letters directly to the search committee.

Interested candidates must apply online at: <https://www.uvmjobs.com/postings/38276> under Position No. 00025109. Inquiries about the position should be addressed to: Dr. Joseph Brayden, Univ. Vermont, Dept. of Pharmacology, Given Medical Building, 89 Beaumont Avenue, Burlington, VT 05405-0068 USA, or via email at: [joe.brayden@uvm.edu](mailto:joe.brayden@uvm.edu).

### Assistant Scientist/Professor in Biomedical Research, Sanford Research

Sanford Research invites applications for full-time faculty at the rank of Assistant Scientist within Sanford Research in Sioux Falls, SD, with commensurate rank of Assistant Professor at the Sanford School of Medicine at the University of South Dakota. Sanford Research is the non-profit research branch under Sanford Health. We seek outstanding scientists with research programs that span areas of biomedical research addressing pediatric and/or rare diseases. This includes, but is not limited to, investigating developmental, cellular and molecular disease mechanisms, using animal models to understand disease progression and design therapeutic interventions, and developing new therapeutic approaches. Successful candidates will join a collaborative team with expertise spanning genetics and genomics, stem cell biology, cell signaling, developmental biology, and cancer biology as they pertain to pediatric and/or rare diseases. Significant institutional support, including modern laboratory space and state-of-the-art facilities will be provided. A comprehensive benefits package will be tailored to the candidate's qualifications.

**Qualifications:** Applicants should hold a PhD, MD or MD/PhD degree and complement the existing strengths and interdisciplinary and collaborative nature of Sanford Research. Physician Scientists are encouraged to apply. Candidates will be expected to develop independent research programs and secure extramural funding.

**Application:** Sanford Health is an Equal Opportunity/Affirmative Action Employer. Applicants should submit a single PDF that includes: (1) detailed curriculum vitae, (2) description of research experience and future research plans with details on relevance of their research to genetics and genomics, pediatrics and rare diseases, stem cell biology, diabetes, or environmental influences of diseases, and (3) three letters of recommendation. If any of the information above is missing, the submission will not be considered. Submit materials via email to: [researchrecruitment@sanfordhealth.org](mailto:researchrecruitment@sanfordhealth.org)

**About Sanford Health:** Sanford Health, one of the largest health systems in the United States, is dedicated to the integrated delivery of health care, genomic medicine, senior care and services, global clinics, research and affordable insurance. Headquartered in Sioux Falls, South Dakota, the organization includes 44 hospitals, 1,400 physicians and more than 200 Good Samaritan Society senior care locations in 26 states and nine countries. Nearly \$1 billion in gifts from philanthropist Denny Sanford have transformed how Sanford Health improves the human condition.

### A Tenure-Track Assistant Professor of Environmental Health Science

The Department of Environmental Health Science in the College of Public Health at the University of Georgia invites applications for a tenure-track Assistant Professor. The position is an academic year (9 month) appointment with an opportunity to supplement salary through external funding. We are seeking applicants with a strong academic record in teaching, research, and service in the area of environmental health sciences with focus on studying adverse health effects of environmental hazards on human populations. Qualifications should include: doctoral degree in a discipline related to environmental and occupational health, environmental epidemiology, biochemistry, or molecular toxicology with at least two years of postdoctoral training. Preferred qualifications include evidence of the ability to submit strong (fundable) proposals for extramural funding, ability to produce and communicate research, and excellence in teaching and working with students. A commitment to cultural diversity is expected. The successful candidate will be required to teach at least one undergraduate and one graduate course in addition to mentoring student research.

Review of applications will begin **November 15th, 2019** and will continue until the position is filled. Application materials should include a cover letter, current curriculum vitae, statement of research and teaching experience, and the names and contact information of three references (name, address, e-mail address, and phone number). Materials should be submitted via the UGA Job Search site: <http://www.ugajobsearch.com/postings/125630>.

*The University of Georgia is an Equal Opportunity/Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, ethnicity, age, genetic information, disability, gender identity, sexual orientation or protected veteran status. Persons needing accommodations or assistance with the accessibility of materials related to this search are encouraged to contact Central HR ([hrweb@uga.edu](mailto:hrweb@uga.edu)). Please do not contact the department or search committee with such requests.*
