# Worldwide Search for Talent

**City University of Hong Kong** is a dynamic, fast-growing university that is pursuing excellence in research and professional education. As a publicly funded institution, the University is committed to nurturing and developing students' talents and creating applicable knowledge to support social and economic advancement. The University has nine Colleges/Schools. As part of its pursuit of excellence, the University aims to recruit **outstanding scholars** from all over the world in various disciplines, including **business, creative media, data science, energy and environment, engineering, humanities and social sciences, law, science, veterinary medicine and life sciences.**

The University welcomes applications and nominations for all faculty positions of Chair Professor, Professor, Associate Professor and Assistant Professor. The remuneration package will be highly competitive, commensurate with qualifications and experience. Interested parties are invited to submit an online application with current curriculum vitae to apply for current openings at <http://go.cityu.hk/hrojjob> or by email to "hrojjob@cityu.edu.hk".

*City University of Hong Kong is an equal opportunity employer and we are committed to the principle of diversity. Personal data provided by applicants will be used for recruitment and other employment-related purposes.*

*Worldwide recognition ranking 52nd, and 4th among top 50 universities under age 50 (QS survey 2020); 1st in the World's Most International Universities (THE survey 2020); 1st in Engineering/Technology/Computer Sciences in Hong Kong (ARWU survey 2016); and 2nd Business School in Asia-Pacific region (UT Dallas survey 2017).*

FROM THE JOURNAL SCIENCE  AAAS

**myIDP:**  
A career plan customized  
for you, by you.

For your career in science, there's only one **Science**

#### Features in myIDP include:

- Exercises to help you examine your skills, interests, and values.
- A list of 20 scientific career paths with a prediction of which ones best fit your skills and interests.
- A tool for setting strategic goals for the coming year, with optional reminders to keep you on track.
- Articles and resources to guide you through the process.
- Options to save materials online and print them for further review and discussion.
- Ability to select which portion of your IDP you wish to share with advisors, mentors, or others.
- A certificate of completion for users that finish myIDP.

# EPFL

## Faculty Position in Soil System Science

at the Ecole polytechnique fédérale  
de Lausanne (EPFL)

The EPFL School of Architecture, Civil and Environmental Engineering (ENAC) invites applications for a faculty position in its Institute of Environmental Engineering (IIE) at the tenure track level (**Assistant Professor**).

We encourage applications from experimentalists (field or laboratory) whose vadose zone research interests extend across scales, can inform model development and couple physical, chemical and biological processes. Example research domains include: response of soils to global change, microbial biogeochemistry of soils, role of soils in global greenhouse gas fluxes, soil biodiversity and its interactions with ecosystem functioning, and soil as a provider of ecosystem services. This professorship will interact with other research groups in IIE related to hydrology, ecology, chemistry, microbiology and atmospheric science.

We seek an outstanding individual who will lead an internationally recognized and impactful research program that extends and leverages the opportunities offered by EPFL. The professor will be committed to excellence in research and in undergraduate and graduate level teaching, and will contribute to the teaching program in Environmental Engineering, which views basic and translational research as the foundation for environmental adaptation and engineering design.

EPFL is a growing and well-funded institution fostering excellence and diversity. It is well equipped with experimental and computational infrastructure, and offers a fertile environment for research collaboration between different disciplines. The EPFL environment is multilingual and multicultural, with English serving as a common interface. EPFL offers internationally competitive start-up resources, salaries and benefits. Besides its main Lausanne campus, EPFL operates antenna sites across Western Switzerland, in Fribourg, Geneva, Neuchâtel and Sion. This professorship will be located at Sion.

The following documents are requested in PDF format: cover letter including a statement of motivation, curriculum vitae, publication list, concise statements of research and teaching interests (maximum of 5 pages for each statement) as well as the names and addresses, including emails, of at least three references (may be contacted at a later stage). Applications should be uploaded to the EPFL recruitment web site:

<https://facultyrecruiting.epfl.ch/position/21823489>

Formal evaluation of the applications will begin on **1<sup>st</sup> July 2020**. The search will continue until the position is filled.

**Further enquiries should be made to the Chair of the Search Committee:**

**Prof. D. Andrew Barry**

Director of the Environmental Engineering Institute
