

我敢闯 我会创
Dare to Differ, Dare to Win

“建行杯”**互联网+** 第六届中国国际 大学生创新创业大赛

The 6th China International College Students' “Internet+” Innovation and Entrepreneurship Competition

Innovation and entrepreneurship is a global trend and the lingua franca of the youth worldwide. Faced with the great opportunities and challenges of the information age, young people around the world, as the mainstay of innovation and entrepreneurship, have been endeavoring to enhance people-to-people exchanges and cooperation in technology and humanities, join hands to build an “Internet+” platform of innovation and entrepreneurship to boost global economic development, and create a community of shared future for humanity.

In May 2015, for the purpose of promoting innovation and entrepreneurship in the field of higher education, the first China College Students' “Internet+” Innovation and Entrepreneurship Competition

was officially launched. After being successfully held for five consecutive years, it is now the world's largest innovation and entrepreneurship competition for university students and graduates. In 2019, the event drew 4.57 million participants (1.09 million teams) from 4,093 colleges and universities in 124

countries and regions. Over a thousand professionals from China and abroad were invited to judge the competition and mentor the participants. Among these professionals were investors, entrepreneurs, start-up incubator mentors, as well as experts in innovation and entrepreneurship education.

During the past five years, a great many college students stood out on the stage of the “Internet+” Competition, and have grown into a major force in innovation and entrepreneurship. A large number of extraordinary projects raced to emerge, covering a wide range of areas that reflected the latest achievements of a new round of technological revolution, such as unmanned helicopter systems, micro-satellites, advanced materials, big data, cloud computing, and artificial intelligence. These projects, through the competition, earned wider market visibility, gained higher valuation, and obtained investment more quickly. In 2019, 284 entry projects were introduced in the investment and financing event of the competition, which facilitated 406 intentions of investment that worth more than 1.7 billion yuan.
