In Manaus, Brazil, a city confronts the rainforest and its pathogens.

NEWS

IN BRIEF

440 News at a glance

IN DEPTH

443 Relief and worry for immune-suppressed people

Early studies suggest COVID-19 vaccine protection varies by ailment and treatment *By J. Couzin-Frankel*

444 After revival, Iran's great salt lake faces peril

Upcoming presidential election could stall efforts to restore Lake Urmia *By R. Stone*

446 Gravity powers batteries for renewable energy

With winches, weights, and disused mine shafts, company looks to beat chemical batteries *By C. O'Grady*
PODCAST

447 Dutch studies bring back the fun—but are they good science?

Critics question protocols and ethics of experimental gatherings that rely on testing to keep people safe *By J. de Vrieze*

448 Malaria vaccine achieves striking early success

But observers want to see results from larger, phase 3 African trial *By M. Wadman*

449 'Superagency' may further politicize Indonesian research

New National Research and Innovation Agency will have broad powers to fund, execute, and control science *By D. Rochmyaningsih*

FEATURES

450 The sentinels

In Brazil, a team of scientists watches the world's largest rainforest for pathogens that could spill from animals to people *By D. Grossman*

INSIGHTS

POLICY FORUM

456 Global policy for assisted colonization of species

Coordinated policies are needed for the translocation of species for conservation *By J. F. Brodie et al.*

PERSPECTIVES

459 Engineering small-ion transporter channels

Voltage-gated channels microfabricated in graphene sheets act as ion-selective transistors *By B. J. Hinds*
REPORT p. 501

460 ZTCG: Viruses expand the genetic alphabet

Viruses build nucleotide Z, identified in meteorites, replacing adenine in DNA genomes *By M. W. Grome and F. J. Isaacs*
REPORTS pp. 512, 516, & 520

462 Gut microbiota through an evolutionary lens

Reversing some industrialization-related changes in the human gut microbiota may be risky *By R. N. Carmody et al.*

464 Going with the grains

Coherent interfaces may not be vital for combining semi- and superconducting materials *By V. Fatemi and M. H. Devoret*
REPORT p. 508

465 *Mycobacterium abscessus* in cystic fibrosis

Environmental *Mycobacterium* share genes and evolve to become pathogens *By R. Brugha and H. Spencer*
RESEARCH ARTICLE p. 483

466 How SARS-CoV-2 first adapted in humans

An early spike protein mutation promotes transmission and will shape the next vaccines *By H. Choe and M. Farzan*
REPORT p. 525

468 David William Schindler (1940–2021)

Trailblazing aquatic researcher, advocate, and whole-ecosystem experimentalist *By V. L. St. Louis et al.*

BOOKS ET AL.

469 The biologically optimized spacefarer

A geneticist proposes a radical plan to help humanity live comfortably on other planets *By K. Szocik*

450

470 Unlocking the secrets of self-awareness

Long neglected by researchers, metacognition has made its way to the scientific spotlight
By C. C. Ruff

LETTERS

472 China's dhole population at risk of extinction

By X. Wu et al.

472 Hopes for Russia's new forest code

By D. Sheil et al.

473 Long-term investment in shark sanctuaries

By D. D. Chapman et al.

RESEARCH

IN BRIEF

476 From *Science* and other journals

REVIEW

479 Plant science

Chronoculture, harnessing the circadian clock to improve crop yield and sustainability
G. Steed et al.

REVIEW SUMMARY; FOR FULL TEXT:
DOI.ORG/10.1126/SCIENCE.ABC9141

RESEARCH ARTICLES

480 Transcription

Structural insights into preinitiation complex assembly on core promoters
X. Chen et al.

RESEARCH ARTICLE SUMMARY; FOR FULL TEXT:
DOI.ORG/10.1126/SCIENCE.ABA8490

481 CRISPR

Toxin-antitoxin RNA pairs safeguard CRISPR-Cas systems
M. Li et al.

RESEARCH ARTICLE SUMMARY; FOR FULL TEXT:
DOI.ORG/10.1126/SCIENCE.ABE5601

482 Vaccines

Modulation of MHC-E transport by viral decoy ligands is required for RhCMV/SIV vaccine efficacy
M. C. Verweij et al.

RESEARCH ARTICLE SUMMARY; FOR FULL TEXT:
DOI.ORG/10.1126/SCIENCE.ABE9233

483 Pathogen evolution

Stepwise pathogenic evolution of *Mycobacterium abscessus*
J. M. Bryant et al.

RESEARCH ARTICLE SUMMARY; FOR FULL TEXT:
DOI.ORG/10.1126/SCIENCE.ABB8699

PERSPECTIVE p. 465

REPORTS

484 Paleocology

Widespread reforestation before European influence on Amazonia
M. B. Bush et al.

488 Island ecology

The human dimension of biodiversity changes on islands
S. Nogué et al.

491 Ecosystem engineers

Equids engineer desert water availability
E. J. Lundgren et al.

PODCAST

496 Multiferroics

Electric field control of natural optical activity in a multiferroic helimagnet
R. Masuda et al.

501 Nanofluidics

Atomic-scale ion transistor with ultrahigh diffusivity
Y. Xue et al.

PERSPECTIVE p. 459

504 Induced seismicity

A risk-based approach for managing hydraulic fracturing-induced seismicity
R. Schultz et al.

508 Quantum computing

Parity-preserving and magnetic field-resilient superconductivity in InSb nanowires with Sn shells
M. Pendharkar et al.

PERSPECTIVE p. 464

Noncanonical genome

512 A widespread pathway for substitution of adenine by diaminopurine in phage genomes
Y. Zhou et al.

516 A third purine biosynthetic pathway encoded by aminoadenine-based viral DNA genomes
D. Sleiman et al.

520 Noncanonical DNA polymerization by aminoadenine-based siphoviruses
V. Pezo et al.

PERSPECTIVE p. 460

525 Coronavirus

Structural impact on SARS-CoV-2 spike protein by D614G substitution
J. Zhang et al.

PERSPECTIVE p. 466

DEPARTMENTS

439 Editorial

Equity in cost-benefit analysis
By Robert W. Hahn

534 Working Life

Driving for a difference
By Bikash Bogati

ON THE COVER

In a fragment of Amazon rainforest within the city of Manaus, Brazil, parasitologist Aline Ramos holds samples of feces, bodily fluids, and tissue collected from pied tamarin monkeys.

Ramos is part of a team screening rainforest animals for novel and known viruses and parasites that might spill over into humans, possibly sparking an outbreak. See page 450. Photo: Hilaera Media/Dado Galdieri
