The Department of Pharmacology at Yale University School of Medicine invites applications for Assistant or Associate Professor positions in the tenure track. Applicants must have an M.D. and/or Ph.D. or equivalent degree and have demonstrated excellent qualifications in research and education. Areas of interest include studies of molecular function such as biochemistry, proteomics, chemical biology, structural biology (including electron microscopy), and computational biology in different areas of drug discovery, cell signaling, metabolism, genetic diseases, rare diseases, cancer and epigenetic mechanisms.

Responsibilities include establishing a vigorous and independently funded research program while supervising and mentoring students with diverse backgrounds plus contributing to the graduate and medical school educational missions. We seek individuals with strong records of independent creative accomplishments, who will interact productively with colleagues within the Department and across Yale School of Medicine and the University.

Pharmacology at Yale University has a rich history of pre-eminence in drug discovery, indeed the first cancer chemotherapy clinical trials were conducted here. Today, the research in our Department encompasses a broad range of fields, with researchers aiming to both understand and treat human disease, with particular strengths in drug discovery, integrative cell signaling, structural biology, and neuroscience. For more details, see https://medicine.yale.edu/pharm/.

Please submit a letter describing qualifications, along with a CV, a two-page summary of current and proposed research, and three letters of reference to the following Interfolio website: apply.interfolio.com/90286.

Informal inquiries may be submitted electronically to Professor Joseph Schlessinger, Chair of Pharmacology, c/o Nathan Kucera (nathan.kucera@yale.edu).

Consideration of applications will begin November 1st, 2021.

Yale University is an Equal Opportunity/Affirmative Action Employer. We seek candidates who embrace and reflect diversity in the broadest sense. Yale values diversity among its students, staff, and faculty and strongly welcomes applications from women, persons with disabilities, protected veterans, and underrepresented minorities.

**EGL Charitable Foundation**

The EGL Charitable Foundation invites you to apply to the

**Gruss Lipper Postdoctoral Fellowship Program**

**Eligibility:**

- Israeli citizenship
- Candidates must have completed PhD and/or MD/PhD degrees in Biomedical Science at an accredited Israeli University/Medical School, or be in their final year of studies
- Candidates must have been awarded a postdoctoral position by a U.S. host research institution

Details available at: www.eglcf.org

Application deadline: October 4, 2021

**The Geriatrics Center and Biology of Aging Group at the University of Michigan are seeking applications for Assistant or Associate Professor positions.** Successful candidates will join a highly-interactive, well-funded, creative faculty, in an environment that includes the Paul F. Glenn Center for Aging Research, NIA Intervention Testing Program, the UM Cardiovascular Aging Center, Claude Pepper Center, the Ann Arbor VA GRECC, and a long-standing NIA-funded training grant. These programs, together with substantial startup funding, provide valuable infrastructure and resources for new and established researchers.

Minimum qualifications are a PhD or MD, several years of highly productive postdoctoral research, and a clear interest in problems relevant to aging. Established scientists would need an international reputation as a leader in aging research, a strong track record of extramural funding, and a reputation as an outstanding mentor. Successful candidates will be housed in modern lab space, and will receive a primary appointment in a basic science or research-oriented clinical department as appropriate. **Inquiries can be directed to Rich Miller (millerr@umich.edu).** Applicants should submit a cover letter, a CV, a brief description of research interests, a synopsis of current and previous research support, and contact information for 3 – 5 referees.
