THE AMERICAN ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE

THE PERMANENT SECRETARY'S REPORT ON THE CINCINNATI MEETING

GENERAL FEATURES

THE seventy-fifth anniversary of the founding of the American Association for the Advancement of Science was celebrated in the very successful seventy-eighth meeting of the association and associated societies, which occurred at Cincinnati during convocation week, from December 27 to January 2. That was the third meeting to be held at Cincinnati. It was the annual meeting for the association year 1924, which had begun October 1, 1923.

The third Cincinnati meeting was in every way successful. In some respects it greatly excelled all earlier meetings of the association. In number of persons registered as in attendance it almost equalled the Boston meeting of the previous year and it did not fall far short of the last Chicago meeting, held in December, 1920, the largest on record. The registration figures for the annual meetings of the four years just ended (1921-1924) are given below, for the sake of comparison and convenient record.

2413, Chicago, December 27, 1920, to January 1, 1921
1832, Toronto, December 27 to December 31, 1921.
2339, Boston, December 26 to December 30, 1922.
2211, Cincinnati, December 27, 1923, to January 2, 1924.

The registration record for Cincinnati was probably not nearly complete, but it was apparently more nearly complete than that for any other recent meeting. Registration by regions is shown below:
