

Cornell University Medical College

First Avenue and Twenty-eighth St.
NEW YORK CITY

The first year of the course is also offered at Ithaca, N. Y., subsequent years at New York City only.

For information address
THE SECRETARY

Johns Hopkins University Medical School

The Medical School is an Integral Part of the University and is in the Closest Affiliation with the Johns Hopkins Hospital.

ADMISSION

Candidates for admission must be graduates of approved colleges or scientific schools with at least two years' instruction, including laboratory work in chemistry, and one year each in physics and biology, together with evidence of a reading knowledge of French and German.

Each class is limited to 75 students, men and women being admitted on the same terms. Except in unusual circumstances, applications for admission will not be considered after July 1st.

If vacancies occur, students from other institutions desiring advanced standing may be admitted to the second or third year provided they fulfill our requirements and present exceptional qualifications.

INSTRUCTION

The academic year begins the Tuesday nearest October 1, and closes the second Tuesday in June. The course of instruction occupies four years and especial emphasis is laid upon practical work in the laboratories, in the wards of the Hospital and in the dispensary.

TUITION

The charge for tuition is \$300 per annum, payable in three installments. There are no extra fees except for rental of microscope, certain expensive supplies, and laboratory breakage.

The annual announcement and application blanks may be obtained by addressing the

Dean of the Johns Hopkins Medical School,
Washington and Monument Sts., Baltimore, Md.

Summer Work for Graduates in Medicine
Beginning Monday, June 2d, and ending Saturday, July 12th, a course in medical diagnosis, including laboratory exercises in clinical pathology and demonstrations in pathological anatomy, will be offered. The course will be limited to thirty students, fee \$100. Applications should be made to the Dean's Office.

SMITHSONIAN INSTITUTION

THE WALTER RATHBONE BACON SCHOLARSHIP

The Secretary of the Smithsonian Institution has approved the rules which are to regulate the award of the Walter Rathbone Bacon Scholarship for the study of the fauna of countries other than the United States of America. The amount available is the interest on the capital invested (about \$2,400 a year) the incumbent to hold the scholarship not less than two years.

Applications for this scholarship, addressed to the Secretary of the Smithsonian Institution, should be submitted not later than June 1, 1924. The application should contain a detailed plan for the proposed study including a statement as to the faunal problems involved; the reasons why it should be undertaken; the benefits that are expected to accrue; the length of time necessary for the carrying out of the project; the estimated cost; and the scientific and physical qualifications of the applicant to undertake the project.

The scholarship will be awarded for a term of two years. If at the expiration of the term it is desired to extend the time, the incumbent shall make application a sufficient time in advance, accompanied by a statement as to the necessity for such extension.

All collections, photographs, records and equipment become the property of the Institution.

The incumbent shall not engage in work for remuneration or receive salary from other sources than the Institution or its branches during the period of this occupancy of the scholarship.

For any further information, address the Secretary, Smithsonian Institution, Washington, D. C.

Parasitology Slides

We have received from the Orient a small stock of five of the most important animal parasites of that region. This material is authentic and is properly prepared.

Z1a—Amoeba histolytica—almost pure culture per slide	1.50
Z19—Kala-azar; Spleen smears, per slide	1.50
Unstained Smears, each	1.25
Z79—Fasciolopsis buski—the large intestinal fluke of China—whole mounts each	2.00
Z80—Clonorchis—The lesser liver fluke of Asia—whole mounts, each	1.50
Z81—Schistosoma Japonica—The Asiatic blood fluke—slides of male and female, each ..	1.50
Z81a—Schistosoma Japonica—Male and female on same slide	3.00

Our stock of this material is limited; we can not promise to fill orders after our present supply is exhausted.

GENERAL BIOLOGICAL SUPPLY HOUSE

1177-79 East 55th Street

Chicago, Ill.

Marine Biological Laboratory

Woods Hole, Mass.

INVESTIGATION

Entire Year

Facilities for research in Zoology, Embryology, Physiology, and Botany. Eighty-four private laboratories \$100 each for not over three months. Thirty tables are available for beginners in research who desire to work under the direction of members of the staff. The fee for such a table is \$50.00.

INSTRUCTION

July 2 to August
12, 1924

Courses of laboratory instruction with lectures are offered in Invertebrate Zoology, Protozoology, Embryology, Physiology and Morphology and Taxonomy of the Algae. Each course requires the full time of the student. Fee, \$75.00.

SUPPLY DEPARTMENT

Open the Entire
Year

Animals and plants, preserved, living, and in embryonic stages. Preserved material of all types of animals and of Algae, Fungi, Liverworts and Mosses furnished for classwork, or for the museum. Living material furnished in season as ordered. Microscopic slides in Zoology, Botany, Histology, Bacteriology. Catalogues of Zoological and Botanical material and Microscopic Slides sent on application. State which is desired. For catalogues and all information regarding material, address:

GEO. M. GRAY,

Curator, Woods Hole, Mass.

The annual announcement will be sent on application to The Director, Marine Biological Laboratory, Woods Hole, Mass.

VITAMINE-B Must Be Supplied

IN ALL METABOLISM STUDIES, Vitamine-B must be present in the diet, in adequate amounts, or all other elements of the experiment become a failure.

The most convenient source of a known and dependable amount of Vitamine-B is the Yeast Vitamine-B concentrate of Osborne & Wakeman (Jr. Biol. Chem., Dec., 1919).

This is used in the form of Yeast Vitamine-Harris, as powder or tablets of definite weight. **IN CLINICAL PRACTICE**, Yeast Vitamine-Harris Tablets stimulate the appetite, causing an increase in the daily intake of normal foods.

H. J. Gerstenberger (Amer. Jr. Dis. Child., Oct., 1923) has described nine cases of Herpetic Stomatitis and Herpes Labialis, all of which were improved and cured by feeding Yeast Vitamine-Harris Tablets.

This seems to be attributable to Vitamine-B as a **hormone** or stimulant of metabolism.

TO UPHOLD THE TRADITIONS OF AMERICA'S MOST EXCLUSIVE SCHOOLS

In the delightfully intimate classrooms of America's most exclusive schools, Daylight Projection endows Visual Education with the personal touch that contributes so much toward upholding scholastic traditions.

Rev. H. J. Buehler, M.A., Litt.D., Headmaster of the Hotchkiss School, Lakeville, Connecticut, endorses Daylight Projection by graciously writing:

"Your Daylight Screen is an epoch-making achievement, and it should be a part of the equipment of every American school."

With Daylight Projection the instructor remains in front of his class where he commands interest and attention—shades remain up—notes are taken as usual in full daylight, and perfect ventilation fosters alert, intelligent thinking.
