

Johns Hopkins University SCHOOL OF MEDICINE

The School of Medicine is an Integral Part of the University and is in the Closest Affiliation with the Johns Hopkins Hospital.

ADMISSION

Candidates for admission must be graduates of approved colleges or scientific schools with at least two years' instruction, including laboratory work, in chemistry, and one year each in physics and biology, together with evidence of a reading knowledge of French and German.

Each class is limited to a maximum of 75 students, men and women being admitted on the same terms. Applications may be sent any time during the academic year but not later than June 15th.

If vacancies occur, students from other institutions desiring advanced standing may be admitted to the second or third year provided they fulfill the requirements and present exceptional qualifications.

INSTRUCTION

The academic year begins the Tuesday nearest October 1, and closes the second Tuesday in June. The course of instruction occupies four years and especial emphasis is laid upon practical work in the laboratories, in the wards of the Hospital and in the dispensary.

TUITION

The charge for tuition is \$300 per annum, payable in three installments. There are no extra fees except for certain expensive supplies, and laboratory breakage.

The annual announcement and application blanks may be obtained by addressing the

Registrar of the School of Medicine, Johns Hopkins University, Washington and Monument Sts., Baltimore, Md.

Owing to an extensive building program about to be inaugurated at the Hospital and Medical School it has been deemed necessary to withdraw, for the next two years at least, post-graduate instruction during the year as well as the summer course formerly given during June and July.

COLEMAN & BELL

Laboratory Reagents are Dependable!

Our List Includes:

- C. P. Inorganic Chemicals
- C. P. Organic Chemicals
- Chemical Indicators (dry). Including
 - Hydrogen Ion Indicators of Clark & Lubs and Sorensen
- Biological Stains (dry)
- Reagents and Solutions—
 - Stains in Solution
 - Indicators in Solution
 - Blood Reagents
 - Diagnostic Reagents
 - Fixing Solutions
 - Mounting Media
 - Volumetric Solutions
 - Test Papers

Coleman & Bell Products may be secured from the principal dealers in laboratory supplies in the United States and in Foreign Countries, or may be ordered direct. Catalogue sent upon request.

THE COLEMAN & BELL COMPANY

(Incorporated)

Manufacturing Chemists
Norwood, Ohio, U. S. A.

ORGANIC AND BIOLOGICAL CHEMIST, Ph.D., desires teaching position with opportunities for research in a college or university where library and research facilities are available. Would be interested in teaching either general, analytical, organic or biological chemistry. Experience in organic and biological research with publications in these fields. Has had training in bacteriology and some teaching experience during graduate work. Address, "C. E.," care of Science, 3939 Grand Central Terminal, New York, N. Y.

THE MICROSCOPE

By SIMON H. GAGE, of Cornell University

Revised Edition (14th) Ready

The Old and the New in Microscopy, with a special chapter on Dark-Field Methods and their Application.

Postpaid, \$3.50

COMSTOCK PUBLISHING CO., ITHACA, N. Y.

SCIENTIFIC PERIODICALS

Chemical, Medical and allied subjects. Complete files, volumes and copies, bought and sold. Kindly send us a list of your wants and items of which you may wish to dispose.

BIOLOGICAL SUPPLIES

For the classroom, museum or collector.

First class preparations.

Send for new (1926) Catalogue No. 1. Zoological and Embryological material, Life Histories and Habitat Groups.

Catalogue No. 2, Botanical material. Catalogue No. 3, Microscopic slides. Address all correspondence regarding material and catalogues to:

GEO. M. GRAY, Curator

THE MARINE BIOLOGICAL LABORATORY
Woods Hole, Mass.

Parasitic Slide Preparations

Microscopic slide preparations of Coccidians, Leishmania, Trypanosomes, Entamoeba and Giardia pure culture, amoebae in intestinal ulcers, Treponema, malaria in brain tissue and in blood, ova of hookworm, etc., are among our specialties. If you use demonstration material for parasitology, it will certainly be worth your effort to send for and examine, on approval, some of these preparations.

TYCOS MICRO-BAROGRAPHS

The Micro-Barograph has a remarkably sensitive movement and an unusually high chart, furnishing a record of even the smallest changes in atmospheric pressures. Slight changes, hardly visible on an ordinary barograph chart, are read easily from the Micro-Barograph.

In laboratories, where the determination of atmospheric pressure has a decided bearing on the results of investigations and experiments, the Micro-Barograph is a valuable addition to the equipment.

Send for Scientific Instrument Catalog.

Brewers' Yeast A Specific for Disease

In the preparation of highly concentrated products of Vitamine-B, from fresh brewers' yeast, we believe we are working with the purest specimens of medicinal brewers' yeast available.

For years, we have supplied medicinal brewers' yeast and concentrate to universities, colleges, experiment stations and the U. S. Public Health Service, for studies in nutrition and for clinical practice.

Brewers' Yeast-Harris is a dry, granular powder. It can be shipped or stored in all climates, at all seasons of the year. It *keeps indefinitely*, in a dry place at room temperature.

The U. S. Public Health Service has recently announced the improvement and cures of 26 cases of pellagra in the Georgia State Sanitarium, with the addition of Brewers' Yeast-Harris to the diet.

Geo. R. Cowgill, Yale Univ., has shown the *improvement of appetite in caged dogs*, when fed small, daily amounts of Yeast Vitamine-Harris Concentrate—rich in Vitamine-B.

H. J. Gerstenberger, Lakeside Hospital, Cleveland, Ohio, reported a series of cases of *Herpetic Stomatitis* and *Herpes Labialis*, cured with addition of Yeast Vitamine-Harris Tablets to the regular diet.

Barnett Sure, Univ. Ark., reported *increased milk secretion in nursing mothers*, when fed liberal amounts of Yeast Vitamine-Harris Tablets.

Goldberger and Tanner, U. S. P. H. Service, reported *cures of black tongue in dogs*, when fed Brewers' Yeast-Harris (medicinal).

The Connecticut Experiment Station and U. S. Public Health Service have shown the *superiority of brewers' yeast over bakers' yeast*, as a source of Vitamine-B and as a *cure for specific disease*.

Sample bottle of yeast or Yeast Vitamine Tablets . . . \$1.50 each
