

## BOSTON UNIVERSITY SCHOOL OF MEDICINE

ORGANIZED IN 1873

### ANNOUNCEMENT

may be obtained by application to

THE REGISTRAR

80 East Concord Street,

Boston,

Massachusetts

## JOHNS HOPKINS UNIVERSITY SCHOOL OF MEDICINE

The School of Medicine is an Integral Part of the University and is in the Closest Affiliation with the Johns Hopkins Hospital.

### ADMISSION

Candidates for admission must be graduates of approved colleges or scientific schools with two years' instruction, including laboratory work, in chemistry, and one year each in physics and biology, together with evidence of a reading knowledge of French and German.

Each class is limited to a maximum of 75 students, men and women being admitted on the same terms. Applications may be sent any time during the academic year but not later than June 15th.

If vacancies occur, students from other institutions desiring advanced standing may be admitted to the second or third year provided they fulfill the requirements and present exceptional qualifications.

### INSTRUCTION

The academic year begins the Tuesday nearest October 1, and closes the second Tuesday in June. The course of instruction occupies four years and especial emphasis is laid upon practical work in the laboratories, in the wards of the Hospital and in the dispensary.

### TUITION

The charge for tuition for 1929-30 will be \$600 per annum, payable in two installments. There are no extra fees except for certain expensive supplies, and laboratory breakage.

Inquiries should be addressed to the

Executive Secretary of the School of Medicine, Johns Hopkins University, Washington and Monument Sts., Baltimore, Md.

Graduates in Medicine who satisfy the requirements of the heads of the departments in which they desire to work are accepted as students for a period not less than three quarters. Tuition charge is \$50 a quarter.

## The Wistar Institute Bibliographical Service

is of invaluable assistance to

Librarians—Investigators—Teachers

It brings to them, in AUTHORS' ABSTRACT form, a brief review of all original papers on Biological Subjects which appear in the following journals:

Journal of Morphology and Physiology  
The Journal of Comparative Neurology  
The American Journal of Anatomy  
The Anatomical Record  
The Journal of Experimental Zoology  
American Journal of Physical Anthropology  
The American Anatomical Memoirs  
Folia Anatomica Japonica (Tokio, Japan)  
Stain Technology (Geneva, N. Y.)  
Physiological Zoology (Chicago, Ill.)

### Advance Abstract Sheets

issued semi-monthly, bearing Authors' Abstracts without bibliographic references, offer a practical means of making research immediately available in abstract form and of purchasing articles of special interest in reprint form without the necessity of subscribing to all the journals. Subscription, \$3.00 per year.

### Bibliographic Service Cards

with complete bibliographic references, printed on Standard Library-catalogue cards, are of value and assistance to Librarians and Investigators. Subscription, \$5.00 per year.

### Abstracts in Book Form

referred to above, are brought together periodically, with Authors' and Analytical Subject Indices. Price \$5.00 per volume.

*Subscriptions to the Bibliographic Service and orders for reprints should be sent to*

The Wistar Institute of Anatomy and Biology

Thirty-sixth St. and Woodland Ave. Philadelphia, Pa.

## BIOLOGICAL SUPPLIES

Zoological		Groups
Embryological		Slides

book on paleontology by  
Edward Wilber Berry, Pro-  
fessor of Paleontology, Johns  
Hopkins University. ☞ ☞

An Introductory text on  
Paleontology with an en-  
tirely new method of pre-  
sentation. ☞ ☞ ☞ ☞

## BERRY'S PALEONTOLOGY

---

---

THIS new book is not merely a catalog of fossil bones and shells, but a stimulating account of animals that were once alive. It presents a dynamic rather than a static picture of prehistoric organisms. The chief emphasis in the book is placed on:—

- (1) resemblances rather than differences
- (2) adaptations of organisms to their environment.

The numerous organisms discussed are arranged under the following group headings:

Chapter I—Introduction	
Chapter II—The Protozoa	Chapter VII—The Bryozoa
Chapter III—The Porifera or Sponges	Chapter VIII—The Brachiopoda
Chapter IV—The Coelenterata	Chapter IX—The Mollusca
Chapter V—The Worms	Chapter X—The Arthropoda
Chapter VI—The Echinoderma	Chapter XI—The Vertebrata

Although the book is written primarily as a text for beginning classes in paleontology, it offers a great deal of value and interest to the geology student, the biology student, the layman interested in science and the amateur student of fossils.

392 pages, 6 x 9, 175 illustrations

**\$3.50 postpaid**

## Carnegie Institution of Washington

No. 382. **Willis Bailey.** Studies in Comparative Seismology: Earthquake Conditions in Chile. Quarto. Pages xi-178, 75 plates, 19 text-figures ..... \$5.50

This work deals with the historical record of the earthquake activity of Atacama, a province of northern Chile, and with the geology of the region in so far as it bears on the cause of earthquakes. Dr. Willis gives the results of his observations on the structural geology and proposes an hypothesis to account for the elevation of the Andes.

No. 87. The California Earthquake of April 18, 1906. Report of the State Earthquake Investigation Commission, **Professor Andrew C. Lawson**, Chairman. Quarto, two volumes, and atlas ..... \$19.00

This is the report of the State Earthquake Investigation Commission appointed by the Governor of California. The fault where the earthquake originated is a part of a larger physiographic feature known as the San Andreas rift. Volume II contains a theoretical discussion of the phenomena described in volume I. Records obtained by seismographs in all parts of the world are given and discussed. A very complete mathematical theory of seismographs is given.

No. 381. **Du Toit, Alexander L.** Geological Comparison of South America with South Africa. With a Palaeontological Contribution: Upper Carboniferous Fossils from Argentina, by **F. R. C. Reed.** Pages viii-158, 16 plates, 1 map, 7 text-figures ..... \$3.00

Carnegie Institution has recently issued a price list of its publications and copies will be gladly sent upon receipt of request.

*Books may be ordered through your bookdealer or direct from*

## AMERICAN MEN OF SCIENCE

### *A Biographical Directory*

Edited by J. McKeen Cattell and Jaques Cattell

*New Impression now ready*

The fourth edition of the Biographical Directory of American Men of Science contains about 13,000 sketches and extends to 1,132 pages. It is an invaluable work of reference for scientific men. It is useful for libraries, newspapers, educational executives and all who have relations with those engaged in scientific research.

*Price, Ten dollars net, postage paid*
