

THE WISTAR INSTITUTE
BIBLIOGRAPHIC SERVICE
 ISSUES
AUTHORS' ABSTRACTS

of all papers appearing in the journals listed below prior to publication of the articles in full. By this advance information biologists may familiarize themselves with *contemporary research* in a minimum of time.

Advance Abstract Sheets are issued twice a month, each sheet containing ten or more authors' abstracts. Subscription rate is \$3.00 per year.

Bibliographic Service Cards, following the Advance Abstract Sheets, also are issued twice a month. In addition to the authors' abstracts, the cards provide subject headings and complete bibliographic reference. The cards are convenient for filing and library records. Price, \$5.00 per year.

At regular intervals the authors' abstracts are assembled and published in book form with complete authors' and analytical subject indices. Price, \$5.00 per volume. Liberal discount to subscribers to the Bibliographic Service Cards.

THE MOLL

RECORDING MICROPHOTOMETER

For rapidly and accurately recording the intensity of photographed spectra.

By special arrangement with Kipp & Zonen, we import apparatus of their manufacture and are in position to be of definite service to our customers by relieving them of all details incident to shipping and customs formalities.

Descriptive literature will be sent on request.

*They would have been
 better Geologists*

IF

Says A. C. VEATCH:

"To the mass of students, both young and old, a knowledge of geology has value only as it forms part of a broad cultural background. Dr. Snider's work [EARTH HISTORY] is unique in meeting this requirement, and since this is true it seems to me also better as an *introduction* to geology for those who intend to specialize in any one of its many aspects than the courses generally given. My view in this last particular is based on experience with many assistants, trained in geology in many different colleges and universities, who, it seemed to me, would have been better geologists if they had had a broader initial background than that apparently afforded by the courses they had received."

A. C. Veatch, internationally known geologist is one of over 100 geologists, teachers of geology, and book critics who have commented favorably upon
